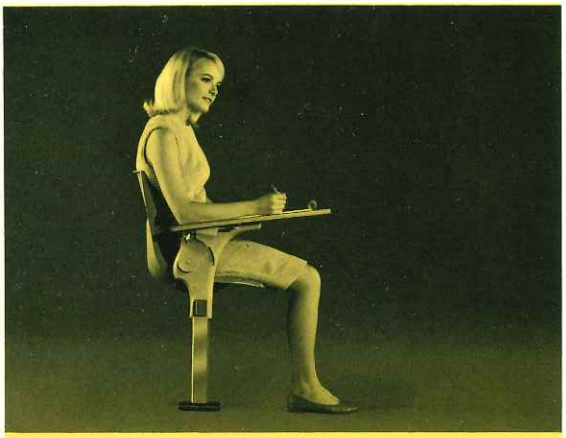
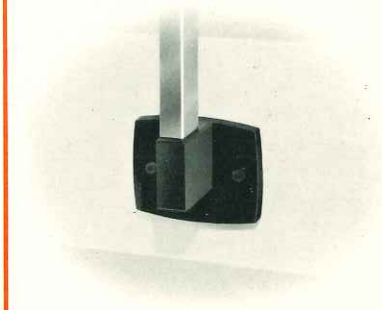
Posture-shaped fiberglass shells . . . sturdy fold-away tablet arms . . . superbly styled mass seating convenience

Bringing new efficiency to auditorium seating, Krueger's new SEQUENCE SEATING assures comfortable alertness for new workmanlike efficiency. Distinctive features include the convenience of a folding tablet arm and a unique pitched shell design for firm posture-perfect support. Adaptable to floor or riser mounting on 2, 3 or 4-unit bases, colorful fiberglass shells attach securely to a rigid steel supporting beam and uprights. For added beauty, uprights have a Polished Chrome finish. Plastic laminated Tablet Arms, in Light Maple or Walnut surfaces, feature folding mechanisms which operate with a one-hand motion and afford rigid writing surfaces. Folding mechanisms are sturdy cast aluminum and steel construction featuring simplified, foolproof design with a minimum of wearing parts. Arm folds easily and quietly to storage position, uncovering a comfortable armrest and allowing easy cleaning. For increased student productivity and mass seating versatility with a minimum of maintenance, discover the unlimited possibilities of Krueger SEQUENCE SEATING.



UPRIGHT SUPPORT—Specially designed contour-shaped shell features pitched backrest, providing posture-perfect support and attentive comfort.

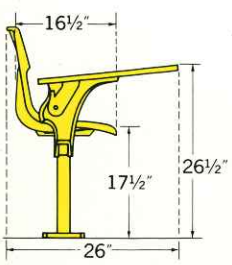
Tablets fold away into storage position with fingertip ease.

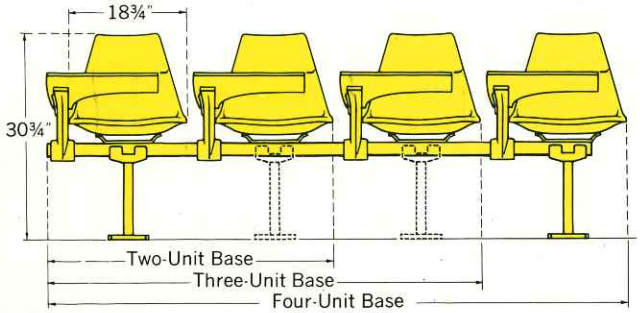


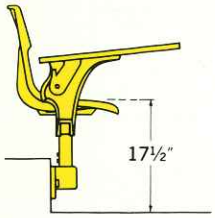
RIGID MOUNTING—Cast aluminum flange with baked-on Black enamel finish, attaches securely to riser or floor with two bolts, firmly supports Polished Chrome upright.

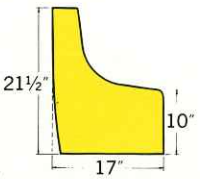
Optional extra

SEAT CUSHION—Naugahyde covered thick foam cushion secures to seat with Velcro fasteners and lifts easily for cleaning. Available in assorted decorator colors.









Note the ample writing surface of the Tablet Arm. This important feature is available in a Light Maple or Walnut plastic laminated finish.

Specifications

BASE CONSTRUCTION: Two 14-gauge, 1" x 2" seamless steel uprights fasten securely into floor or riser mounted flanges. Flanges are cast aluminum and fasten securely to mounting surfaces with 2 bolts. Shells mount to 11-gauge spiders which bolt to 11-gauge 1½" x 2" seamless steel supporting beam.

FRAME FINISHES: Flanges, spiders and mounting frame are Black baked-on enamel. Uprights are Chrome-plated steel.

FIBERGLASS SHELLS: One-piece seat and back of contour-shaped .150 thick glass reinforced polyester with textured back support. Rolled edges add comfort, strength. Four "molded-in" studs on underside of shell attach to formed steel spider with self-locking "kep" nuts.

FIBERGLASS COLORS: Sand Beige, Ebony Black, Pearl White, Mandarin Red and Colonial Yellow. See inside back cover for color samples.

TABLET ARM: ⅝" Thick plywood of 11-ply hot press urea bonded construction, surfaced with Light Maple or Walnut woodgrain plastic laminant. Specify surface preferred.

TABLET ARM MECHANISM: All die-cast parts with Light Beige enamel finish except Nickel-plated cam and hinge. Internal plates, studs, spring yokes and bottom mounting plate are Zinc-plated. Helical cam rotates tablet arm to final storage position with gravity instead of springs. Lowered Tablet Arm exposes Black plastic armrest.

SEAT CUSHION: Naugahyde covered cushion secures to seat with Velcro fasteners (2 sewn to underside of pad and 2 matching surfaces fastened to shell). Permits easy removal for cleaning. Eight decorator-selected colors to choose from. See inside back cover for color selections.

PACKING: See Krueger Price List for packing, shipping information.

NEW KRUEGER MODULAR SEATING

Introducing the new Modular "D" Series... colorful fiberglass seating, in enduring multi-unit combinations

No. 6000D-3/1 with Mandarin Red fiberglass shells.

With the decorative elegance and functional efficiency to graciously enrich any interior where multiple seating is a necessity, new Krueger "D" Series MODULAR SEATING now offers distinctive new styling. The new base design features the richness of lustrous Polished Aluminum pedestals with Colored accent stripes and striking Brushed Aluminum legs supporting a versatile selection of colorful, durable fiberglass shells in arm and armless styles. Shells and Walnut or White plastic surfaced table tops, in 2, 3 or 4-unit variations, are securely attached to a rigid steel frame. Armless shells are also available fully upholstered in a distinctive color selection of Spot-Shed treated 100% rayon fabric or lasting fabric-backed U. S. Naugahyde Chromata. Easily adaptable, Krueger MODULAR SEATING readily conforms to any seating situation in harmony and comfortable convenience.

No. 3200D-3 — Modular Seating 3-unit base featuring Forest Green fiberglass shells.

No. 6000M-U-3/1 Modular Seating 4-unit base features 3 upholstered shells, in Vermilion and Azure Blue Naugahyde.

Ruggedly handsome "M" Series features cast iron bases, comfort proven fiberglass styling

Comfortable . . . care-free . . . enduring — Krueger's versatile "M" Series MODULAR SEATING designs conform easily to any room size, shape or seating plan with modern, contemporary styling. Colorful posture-curved fiberglass shells and plastic-top tables in two, three or four-unit variations, contrast with sturdy, heavy-duty cast iron bases—free standing, ganged in line or back-to-back. Rugged construction and weight distribution assure stability. For added comfort, armless shells are available foam-cushioned and fully upholstered in colorful Naugahyde Chromata or Spot-Shed treated 100% rayon fabrics. Capitalize on the full seating potential of every multiple seating situation with the design flexibility of Krueger MODULAR SEATING.

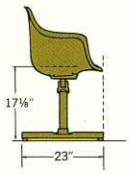
No. 3200M-3/1 — Four unit base with Colonial Yellow, Pearl White shells.

Standard feature

WALL SAVERS—With extended leg section against baseboard, backrest remains inches from wall.

Optional extra

GANGING DEVICE—Steel attachment joins units rigidly back-to-back or in line, is easily removed for new seating arrangements.



3200D

Specifications

GENERAL

FIBERGLASS SHELLS: One-piece seat and back of contour-shaped glass reinforced polyester, .150 thick. Four "molded-in" studs on seat of shell attach to spider adapter with self-locking "kep" nuts.

FIBERGLASS COLORS: Sand Beige, Shallow Aqua, Ebony Black, Pearl White, Ensign Blue, Forest Green, Mandarin Red or Colonial Yellow. See inside back cover for color samples.

UPHOLSTERED SHELLS: (6000 only) — 1½" Thick foam padding is molded and sealed to shell contours, and covered with fabric-backed U.S. Naugahyde Chromata or textured Spot-Shed treated 100% rayon fabric. Upholstery is smoothly molded to front and back and securely sealed to the fiberglass.

UPHOLSTERY COLORS: For color selections available, see inside back cover.

SEAT CUSHION: Naugahyde covered cushion secures to seat with Velcro fasteners (2 sewn to underside of pad and 2 matching surfaces fastened to shell). Permits easy removal for cleaning. Foam cushion tapers from maximum 2" thickness. See inside back cover for color selections.

TABLE UNITS: Solid core top measures 19½" x 22" x ¾" with White or Walnut plastic laminated surface, self-edged.

GLIDES: Self-leveling, Chrome-plated steel glides are firmly secured to base. Glides are adjustable to permit leveling Modular units on uneven floors.

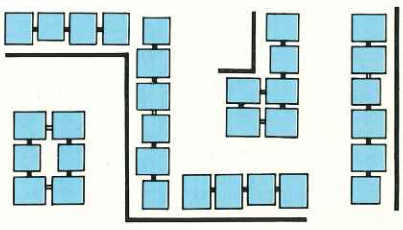
"M" SERIES

BASE CONSTRUCTION: Heavy-duty cast iron pedestals with channel iron mounting frame. Black crinkle-texture finish is standard; special finishes optional. Shell and table units are mounted on cast iron spiders bolted to supporting frame. Two leg units standard, (No. 3200M-4 has three).

"D" SERIES

BASE CONSTRUCTION: Leg sections are heavy-gauge cast aluminum in Satin Brushed finish. 14-Gauge, 1" x 2" steel uprights, bolted securely to legs and supporting beam. Polished Aluminum sleeves cover front and back of uprights. Vinyl accent strip on upright matches shells. Shell and table units are mounted on 11-gauge, formed steel spider which bolts to 11-gauge 1½" x 2" Black seamless steel supporting beam.

PACKING: See Krueger Price List for packing and shipping information.



VERSATILE ARRANGEMENTS of Krueger Modular Seating's shell and table-top combination units adapt to any space requirement.

NEW KRUEGER 7000 FIBERGLASS CHAIRS

Another distinctive new "Stackables"* design from Krueger

Lending a smart accent to any setting, Krueger's new 7000 Series combines classic contemporary styling with durable care-free dependability. Fashionably sculptured fiberglass shells are posture-shaped for maximum seating comfort and feature a contoured backrest for upright back support. Backrest is textured to further enhance design. Sturdily constructed and easy-to-clean, shells are mounted on slim-line tubular legs or Brushed Aluminum swivel/pedestal base. As a featured extra, foam seat pad upholstered in lasting Naugahyde affords additional seating comfort and a rich decorator accent. Stack chairs store easily and feature optional ganging attachments for mass seating convenience. Shells are available in a splendid selection of highly adaptable colors.

No. 7600 Square Tube Leg Stack Chair in foreground, features Mandarin Red shell, Brushed Chrome legs.

*Trademark

No. 7005 Pedestal Side Chair, Colonial Yellow shell.

No. 7100 Side Chair, Pearl White shell.

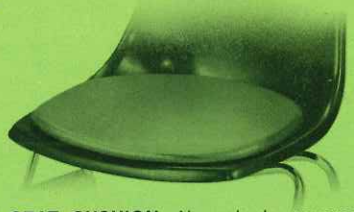
No. 7300 Stack Chair, Ebony Black shell.

Standard features

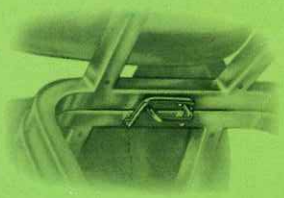
SELF-LEVELING FEET – Glides on 7000 Chairs are self adjusting and rubber cushioned, firmly secured into leg ends. Grey polytop cap on 7600 protects leg finishes during stacking.

STURDY CONSTRUCTION – On 7000 Stack Chairs, heavy-gauge, die-formed steel straps are welded to top of seam-welded leg sections for maximum rigidity and strength.

Optional extras



SEAT CUSHION – Naugahyde covered thick foam cushion secures to seat with Velcro fasteners and lifts easily for cleaning. Available in assorted decorator colors.

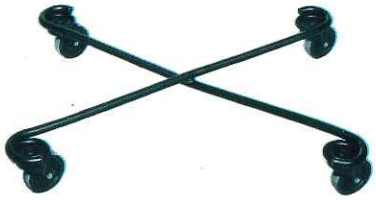


GANGING DEVICE – 7300 and 7600 Stack Chairs can be securely ganged in rows by simply hooking steel loop on one unit into that of the next chair. Units detach with equal ease. Add suffix "G" to model number when ordering.

CASTERS – Heavy-duty 2" swivel casters with non-marring wheels or Bassick ball-type casters with 2" Chrome-plated wheels are optional. Self-leveling foot glides are standard.

NEW KRUEGER 7000 SERIES FIBERGLASS CHAIRS

Storage dolly



Compact, heavy duty steel X-frame dolly securely holds chairs for non-tip stacking to any convenient height. Roller-bearing swivel casters add easy mobility in and out of storage.

Specifications

CHAIR BODY: One-piece seat and back of contour-shaped .150 thick glass reinforced polyester with textured back support. Rolled edges add comfort, strength. Four "molded-in" studs on underside of shell attach to leg frame steel straps or pedestal base adapter with self-locking "kep" nuts.

LEG FRAMES: 7600 Stack Chairs — Seam-welded leg sections of 18-gauge, ⅞" o.d. square steel tubing with 2 heavy-gauge straps welded to cross members. **7100 Side Chairs** — Two leg sections of 16-gauge, ¾" o.d. round steel tubing welded into X-frame and unitized to two die-formed steel seat straps. **7300 Stack Chairs** — Two leg sections of 14-gauge, ⅝" o.d. seam-welded steel tubing, with cross braces, unitized to steel seat straps.

FEET: 7600 Stack Chairs — Self-leveling Nickel-plated, rubber-cushioned glides. Polytop leg cap protects finish during stacking. **7100 Side Chairs/ 7300 Stack Chairs** — Self-leveling glides of non-rusting, Chrome-plated brass with non-marring nylon. Rigidly secured yet easily replaceable when worn.

LEG FINISHES: 7600 Stack Chairs — Brushed Satin Brass or Chrome; or Black Satin-finished enamel (No. 7601). **7100 Side Chairs/7300 Stack Chairs** — Chrome-plated legs; or Black Satin-finished legs (No. 7101/7301). **7005 Pedestal Side Chair**—Brushed Aluminum swivel base.

PEDESTAL BASE: Cast aluminum 4-leg base, Brushed Satin finish, has diagonal spread of 25" on centers. Seat swivels smoothly on lifetime-lubricated nylon bearings, adjusts from 17" to 19" high. Self-leveling foot glides are standard.

CASTERS: Heavy-duty 2" swivel casters or 2" Bassick ball-type casters with Chrome wheel and tread, are available at extra cost on all Pedestal Base units.

FIBERGLASS COLORS: Sand Beige, Ebony Black, Pearl White, Mandarin Red and Colonial Yellow. See inside back cover for complete color selection.

SEAT CUSHION: Naugahyde covered cushion secures to seat with Velcro fasteners (2 sewn to underside of pad and 2 matching surfaces fastened to shell). Permits easy removal for cleaning. Foam cushion is maximum two-inch thickness. See inside back cover for color selections.

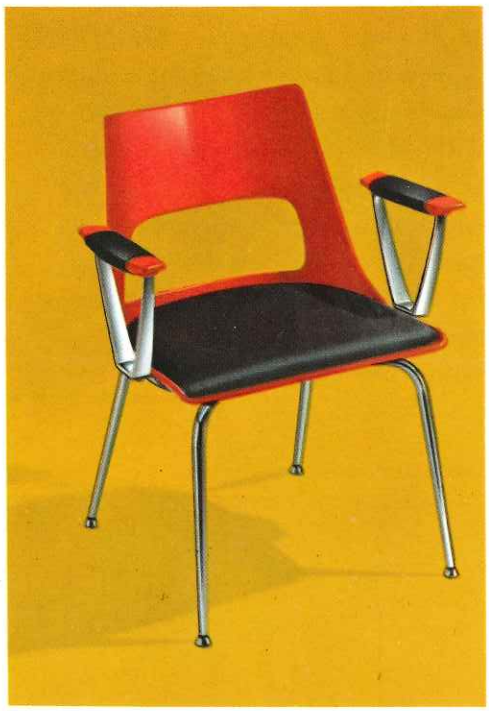
PACKING: See Krueger Price List for packing, shipping information.

KRUEGER *Continental* 5000 SERIES FIBERGLASS CHAIRS

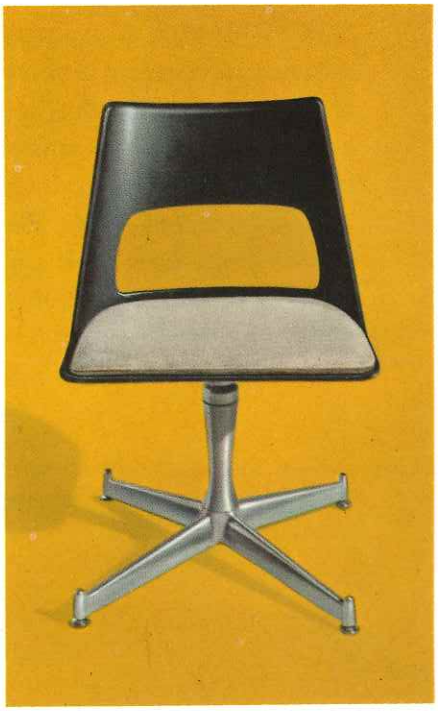
Contemporary European inspired design, rugged fiberglass construction

Artfully blending a cosmopolitan flair with functional seating efficiency, Krueger CONTINENTAL Side and Arm Chairs feature classic sculptured styling, afford foam-cushioned comfort with care-free durability to richly complement the smartest interiors. Rugged, resilient, easy-to-clean fiberglass shells are mounted on slim-line tubular steel legs or Brushed Aluminum swivel/pedestal base. Choose from Spot-Shed protected textured rayon fabric or Naugahyde Chromata upholstery for Fixed Seat models; or rayon fabric on reversible cushion models.

No. 5000-FS — Fixed Seat Side Chair features Ebony Black shell and Naugahyde Chromata Antique Gold seat cushion.



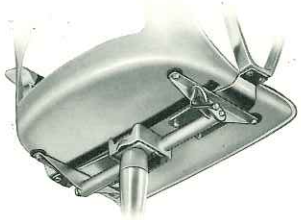
No. 5200 Arm Chair, Mandarin Red shell, Midnight Black cushion.



No. 5005 Pedestal/Side Chair, Ebony shell, Cream cushion.

Optional extras

CASTER OPTIONS—Bassick ball-type casters with 2" Chrome-plated wheels and treads or heavy-duty 2" swivel casters with non-marring wheels are available. Chairs with casters adjust from 17"-19" seat height.



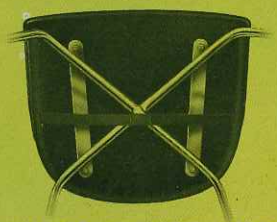
TILTING ACTION—Tilting mechanism of heavy-gauge steel finished in aluminum enamel, is based on torsion-bar principle. Fully adjustable, chair tilts to 16°, is trouble-free and operates quietly without squeak or rattle.

FIXED SEAT CUSHIONS—2" Thick foam-rubber cushions, colorfully upholstered in choice of U. S. Naugahyde or Spot-Shed treated 100% rayon fabric, are bonded to fiberboard base and secured to shell with screws. Add "FS" to model number.

FIXED SEAT/VELCRO CUSHIONS—Fixed Seat models with Velcro fasteners (2 sewn to underside of cushion and 2 matching surfaces fastened to shell) permit easy cushion removal to clean shell or interchange cushion colors. Cushions are 2" thick foam upholstered in fabric-backed U. S. Naugahyde Chromata. Add suffix "FSV" to model number when ordering.

Standard features

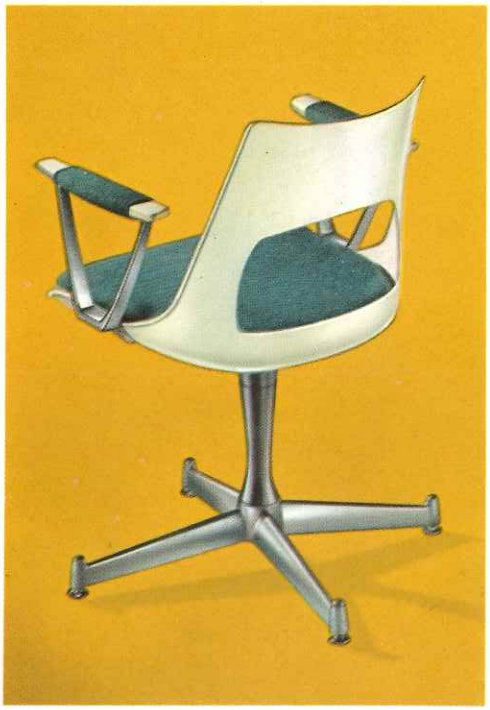
REVERSIBLE SEAT CUSHIONS—Upholstered 2" thick foam cushions are secured through slots in the seat with Velcro fasteners, and lift for easy cleaning of shell, or to reverse. Choose from 12 decorator colors in Spot-Shed treated rayon fabric.



X-FRAME CONSTRUCTION—Note the sturdy all-steel X-frame construction. Legs and frame components are welded into one solid unit, and firmly secured to "molded-in" studs of shell by self-locking "kep" nuts.

SELF-LEVELING FEET—Chrome-plated steel feet with non-marring nylon glides level chairs. Feet are firmly secured, yet are easily replaceable.

ARM DESIGN—"Free form" cast aluminum arm frame is unitized to shell body, and supports molded plastic armrest in matching shell color. Armrest is upholstered at mid-section only to avoid soil and preserve against wear.



No. 5205 Pedestal/Arm Chair, Pearl White shell, Teal cushion.

*Add suffix "FS" for fixed seat option; Naugahyde or rayon fabric upholstery. Add suffix "FSV" for fixed seat with Velcro fastener; Naugahyde upholstery only.

Specifications

CHAIR BODY: .140 Thick glass reinforced polyester. Four studs "molded-in" seat secure chair body to leg frame.

CHAIR BODY COLORS: Mandarin Red, Ebony Black or Pearl White. See inside back cover for color selection swatches.

CHAIR ARM: 3/16" Chrome-plated steel plates secured to shell, support the free-form cast aluminum arm frame. 11" Blow-molded plastic armrests match shell colors and are fitted and unitized with arm frame. Armrest upholstery matches seat cushion.

LEG FRAME: Legs are 16-gauge, ¾" o.d. seam-welded tubular steel tapered to ½" at foot tip. Two Chrome-plated leg sections are crossed and securely welded to heavy-gauge, steel die-formed frame component. Nylon and Chrome-plated steel glides are firmly secured to feet, yet are easily replaced.

PEDESTAL BASE: Cast aluminum, brushed to a satin-like finish. Chair body swivels 360° on lifetime, self-lubricating nylon bearings. Chairs are available with glides in two seat height options — 15"-17" "Continental"; 17"-19" "Standard". Casters available with 17"-19" seat adjustment only. Self-leveling Chrome-plated nylon foot glides are spread 25½" on centers. Casters and torsion-bar type Tilt-Action are available as optional extras.

UPHOLSTERED CUSHION: Standard Reversible Models — 2" Thick foam reversible cushion covered in Spot-Shed protected 100% rayon fabric with latex-coated back. **Fixed Seat Models** — 2" Thick foam cushion bonded to hardboard base, fastened to shell with screws, and covered with service-weight Naugahyde Chromata or 100% rayon fabric as above. Add "FS" to model number to designate Fixed Seat model. Velcro fasteners are also available on Naugahyde upholstered Fixed Seat models. Add "FSV" to model number.

UPHOLSTERY COLORS: For color selections available, see inside back cover.

PACKING: See Krueger Price List for packing and shipping weight information.

KRUEGER 6000 SERIES FIBERGLASS CHAIRS

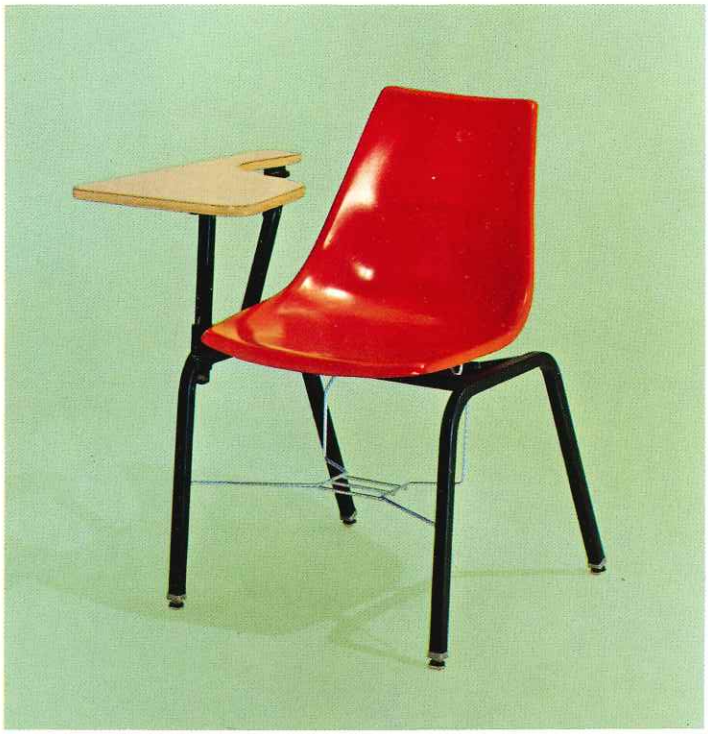
Contemporary functional styling in fiberglass or upholstered chairs

Krueger's durable, comfortable 6000 Series presents a versatile selection of Side, Stack and Pedestal Base models, includes Folding or Fixed Tablet Arms as featured options. A new left-hand Fixed Tablet Arm model is now also included. "Stackables*" designs include choice of square or round tube steel stacking leg sections, with optional ganging attachment for mass-seating. Side Chair legs or executive-styled Swivel/Pedestal Bases are also available. Upholstered models with ¾" foam molded to shell contours, feature fitted coverings of Spot-Shed treated 100% rayon fabric or U.S. Naugahyde Chromata, fabric-backed for lasting wear in a wide range of decorator chosen colors.

*Trademark

No. 6000-U Upholstered "STACKABLES"* in textured Spot-Shed treated 100% rayon fabric.

No. 6300 Round Tubular Leg Stack Chair, Ensign Blue shell.



No. 6001-FTA Folding Tablet Arm, Mandarin Red shell; Book Rack optional.

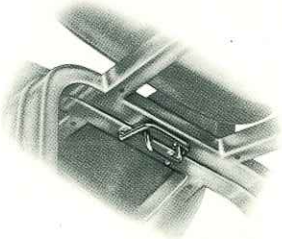
Standard features

FOLDING TABLET ARM—Arm folds flat for easy seating accessibility; lifts and locks in place when ready to use. Folding assembly matches leg finish. Tablet Arm Chairs do not stack.

WALL SAVERS—All 6000 Series Chairs, **except Pedestal Base and 6300 Stack Chairs,** have extended rear legs to keep backrest from marring wall.

SIMPLE STACKING—No. 6000 Stack Chairs easily stack to any convenient height. Rubber bumpers on each leg protect finish from chair-to-chair stacking contact. **Note: 6000-FTA and 6000-TAP models do not stack.**

Optional extras



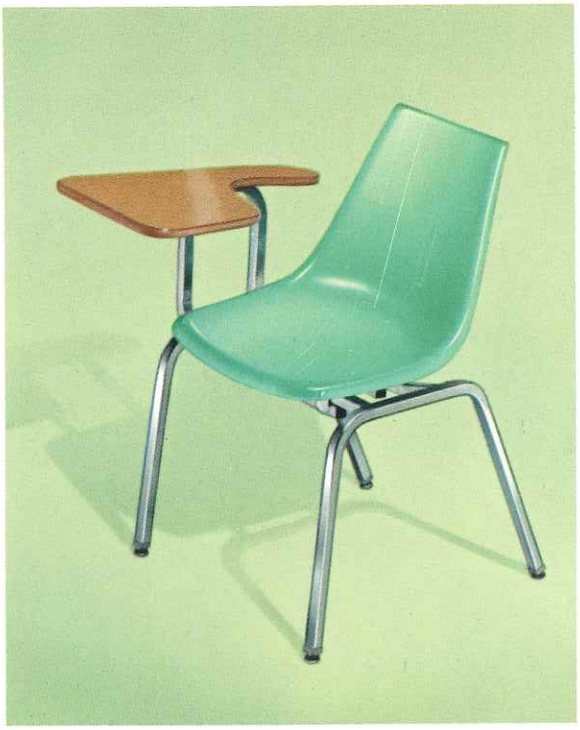
GANGING DEVICE—6000 Stack Chairs are securely ganged in rows by simply hooking steel loop of one unit into that of the next chair. Units detach with equal ease. Add suffix "G" to model number.

BOOK RACK—Provides full storage facility without inhibiting leg room. Zinc-plated ⅜" solid steel rack attaches easily to seat frame and inserts into front legs for easy installation. Optional on 6000 Stack, 6000-TAP and 6000-FTA Tablet Arm Chairs. Chairs do not stack with book rack attached.

KRUEGER 6000 SERIES FIBERGLASS CHAIRS

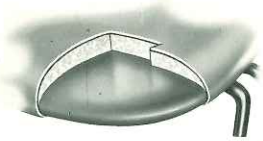
No. 6005-U Pedestal Chair, Azure Blue Naugahyde.

No. 6100 Side Chair, Sand Beige shell.



No. 6000-TAP Rigid Tablet Arm, Shallow Aqua shell.

Optional extras



UPHOLSTERED SHELL—1½" Thick foam cushion is shaped and sealed to shell. Upholstery is carefully fitted, molded and sealed to chair body at both front and back.

CASTER OPTIONS—Heavy-duty 2" swivel casters with non-marring wheels or Bassick ball-type casters with 2" Chrome-plated wheels and treads are available as extras.

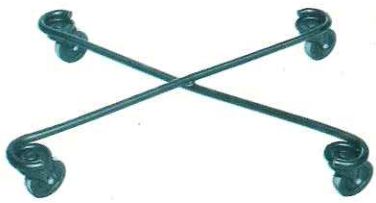
SEAT CUSHION—Naugahyde covered thick foam cushion secures to seat with Velcro fasteners and lifts easily for cleaning. Available in assorted decorator colors.

Standard features

SELF-LEVELING FEET—Nickel-plated glides on 6000 Stack Chairs are self-adjusting and rubber-cushioned, firmly fastened to leg ends. Grey polytop leg cap protects leg finishes from contact damage during stacking.

STURDY CONSTRUCTION—On 6000 Stack Chairs, heavy-gauge die-formed seat straps are welded to top of 18-ga., square-tubular, seam-welded steel leg sections for maximum rigidity.

Storage dolly



Compact, heavy-duty X-frame design securely holds chairs for non-tip stacking to any convenient height. Roller-bearing swivel casters add easy mobility in and out of storage.

**For ganging attachment, add suffix "G" to model number.

Specifications

CHAIR BODY: One-piece seat and back of contour-shaped .150 thick glass reinforced polyester. Rolled edges add comfort, strength. Four "molded-in" studs on understide of shell attach to leg frame steel straps or pedestal base adapter with self-locking "kep" nuts.

LEG FRAMES: 6000/6000-U Stack and Tablet Arm Chairs — Seam-welded leg sections of 18-gauge, ⅞" o.d. square steel tubing with 2 heavy-gauge straps welded to cross-members. **6100/6100-U Side Chairs** — Two leg sections of 16-gauge, ¾" o.d. round steel tubing welded into X-frame and unitized to two die-formed steel seat straps. **6300-6300-U Stack Chairs** — Two leg sections of 14-gauge, ⅝" o.d. seam-welded steel tubing, with cross-braces, unitized to steel seat straps.

LEG FINISHES: 6000/6000-U Stack and Tablet Arm Chair — Brushed Satin Brass or Chrome; or Black satin-finished enamel (6001/6001-U). **6100/6100-U Side Chair; 6300/6300-U Stack Chairs** — Chrome-plated legs; or Black satin-finished legs (6101/6101-U/6301/6301-U). **6005/6005-U Pedestal Side Chair** — Brushed Aluminum swivel/pedestal base.

FEET: 6000/6000-U Stack and Tablet Arm Chairs — Self-leveling nickel-plated glides, rubber-cushioned. Polytop cap protects leg finishes during stacking. **6100/6100-U Side Chairs 6300/6300-U Stack Chairs** — Non-rusting, Chrome-plated brass with self-leveling, non-marring nylon glides. Rigidly secured yet easily replaceable.

PEDESTAL BASE: 6005/6005-U Pedestal Side Chairs — Cast aluminum 4-leg base, brushed satin finish, has diagonal spread of 25" on centers. Seat swivels smoothly on lifetime-lubricated nylon bearings; adjusts from 17" to 19" high. Self-leveling foot glides are standard.

CASTERS: Heavy-duty 2" swivel casters or 2" Bassick ball-type casters with satin Chrome wheel and tread, are available at extra cost on all Pedestal Base units.

TABLET ARM: 6000-TAP/6000-FTA Tablet Arm Chairs — ⅝" Thick plywood of 11-ply hot press urea bonded construction, surfaced with Light Maple or Walnut woodgrain plastic laminant. Arm supports are 18-gauge, ⅞" o.d. square tubular steel finished to match leg. Specify left or right-hand model. Note: Tablet Arm models do not stack.

BOOK RACK: Welded ¼" dia. solid steel rod construction, zinc-plated to a high lustre. Book Racks adaptable to 6000/6000-TAP/6000-FTA units only, and are inserted into holes in square tube legs.

FIBERGLASS COLORS: Sand Beige, Shallow Aqua, Ebony Black, Pearl White, Ensign Blue, Forest Green, Mandarin Red and Colonial Yellow. See inside back cover for color samples.

UPHOLSTERED MODELS: 1½" Thick foam padding is molded and sealed to shell contours, and covered with fabric-backed U.S. Naugahyde Chromata or textured Spot-Shed treated 100% rayon fabric. Upholstery is smoothly molded to front and back of chair body and securely sealed to the fiberglass.

UPHOLSTERY COLORS: For color selections available, see inside back cover.

SEAT CUSHION: Naugahyde covered cushion secures to seat with Velcro fasteners (2 sewn to underside of pad and 2 matching surfaces fastened to shell). Permits easy removal for cleaning. Foam cushion tapers from maximum 2" thickness. See inside back cover for color selections.

PACKING: See Krueger Price List for packing, shipping information.

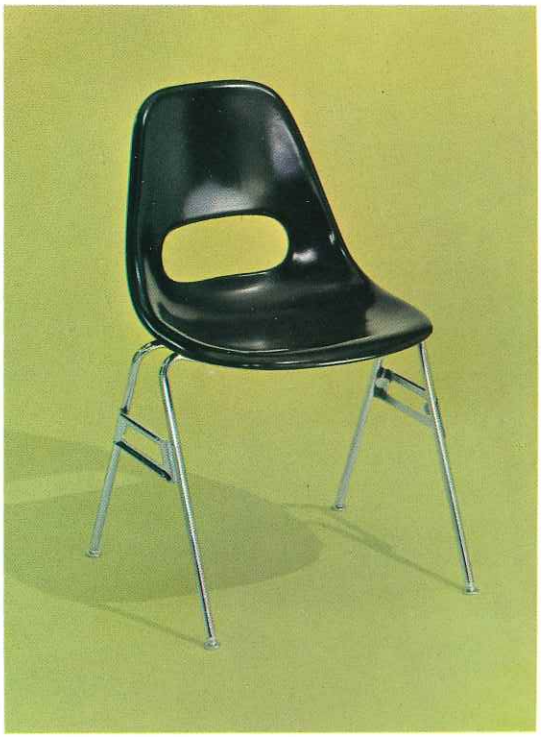
KRUEGER 3000 SERIES FIBERGLASS CHAIRS

Colorful auxiliary seating in side, stack and arm chair designs

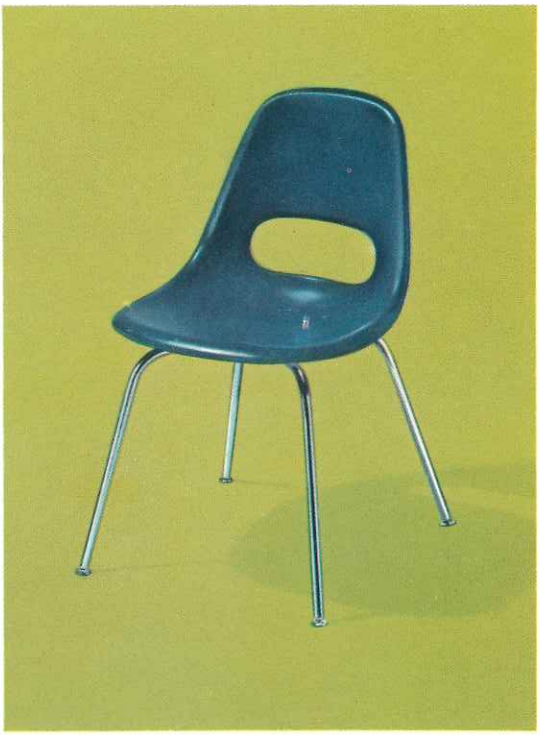
Favored for modern, functional styling and molded comfort, Krueger 3000 Series Chairs feature "Stackables"* Stack Chairs, plus Side and Arm Chairs with tubular leg or swivel/pedestal bases. Durable fiberglass shells afford care-free maintenance, are posture-curved for relaxed comfort. All models are available plain or upholstered, featuring foam cushioning with colorful fitted covers of Naugahyde Chromata. Upholstered Arm Chairs can also be obtained in Spot-Shed treated, enriched textured rayon fabric in choice of twelve decorator colors.

No. 3205-U — Upholstered Pedestal/Arm Chairs in Olive and Nugget fabric, Brushed Aluminum swivel/pedestal bases.

*Trademark



No. 3000 Stack Chairs — Ebony Black shell.

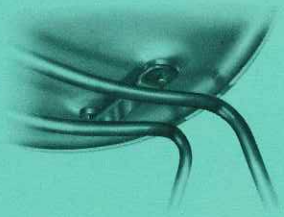


No. 3100 Side Chair — Ensign Blue shell.

Optional extra

GANGING DEVICE—3000 Series Stack Chairs can be securely ganged in rows by simply interlocking steel loops located on chair cross-braces. Units detach with equal ease. Add suffix "G" to model number when ordering.

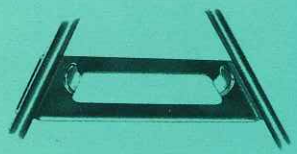
Standard features



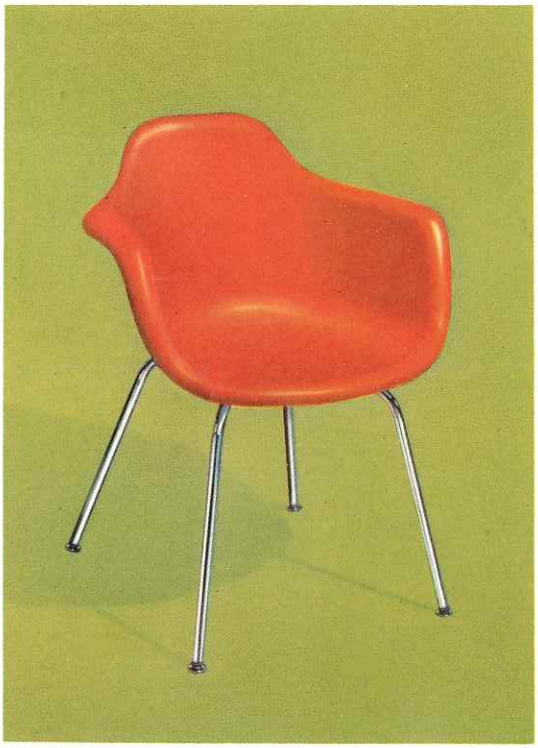
STURDY DESIGN—Self-locking "kep" nuts secure legs to "molded-in" stud bolts of shell. Protective rubber washers between frame and shell act as shock absorbers, adding to seating comfort.

STACKING—3000 Series "STACKABLES"* Chairs stack 12 or more high securely without tipping. Compact X-frame dolly adds storage mobility.

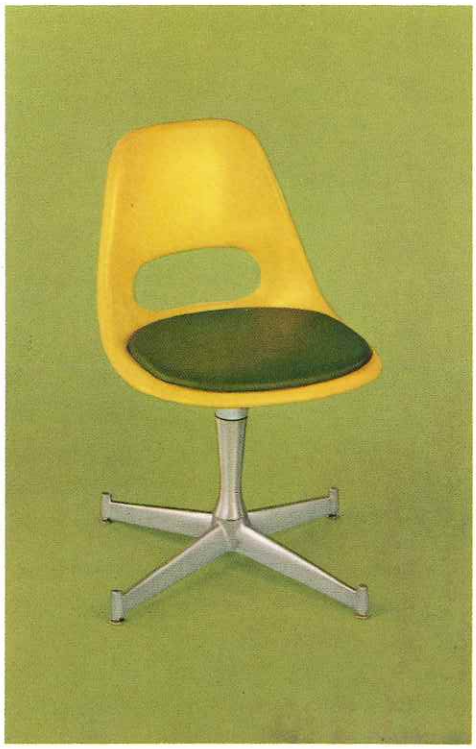
SELF-LEVELING FEET—Chrome-plated non-rusting brass with self-leveling, non-marring nylon glides. Though rigidly secured, glides replace easily.



KRUEGER 3000 SERIES FIBERGLASS CHAIRS



No. 3200 Arm Chair, Mandarin Red shell.

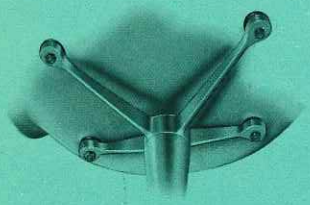


No. 3005 Pedestal/Side Chair, Colonial Yellow shell; optional Olive Green cushion.

Standard features

WALL SAVERS—All 3000 Series Chairs, **except Stack and Pedestal Base Models,** feature extended rear legs that keep backrest away from walls—preventing mar and scrape damage to chair and walls.

X-FRAME CONSTRUCTION—Leg frame structure on Side and Arm Chairs, unlike the Stack Chair, is an X-type frame. The entire assembly is welded into a rigid integral unit for years of hardest use.



SWIVEL ADAPTER—Molded shell is mounted to pedestal base swivel adapter with self-locking "kep" nuts, which fasten to the shell's "molded-in" stud bolts. No stud marks to mar contoured seat surface.

Optional extras

CASTER OPTIONS—Bassick ball-type casters with 2" Chrome-plated wheels and treads or heavy-duty 2" swivel casters with non-marring wheels are available.

UPHOLSTERED SHELL—Soft, ¾" thick foam padding is molded and sealed to shell contours. Fabric or Naugahyde Chromata is fitted to front and back and sealed.

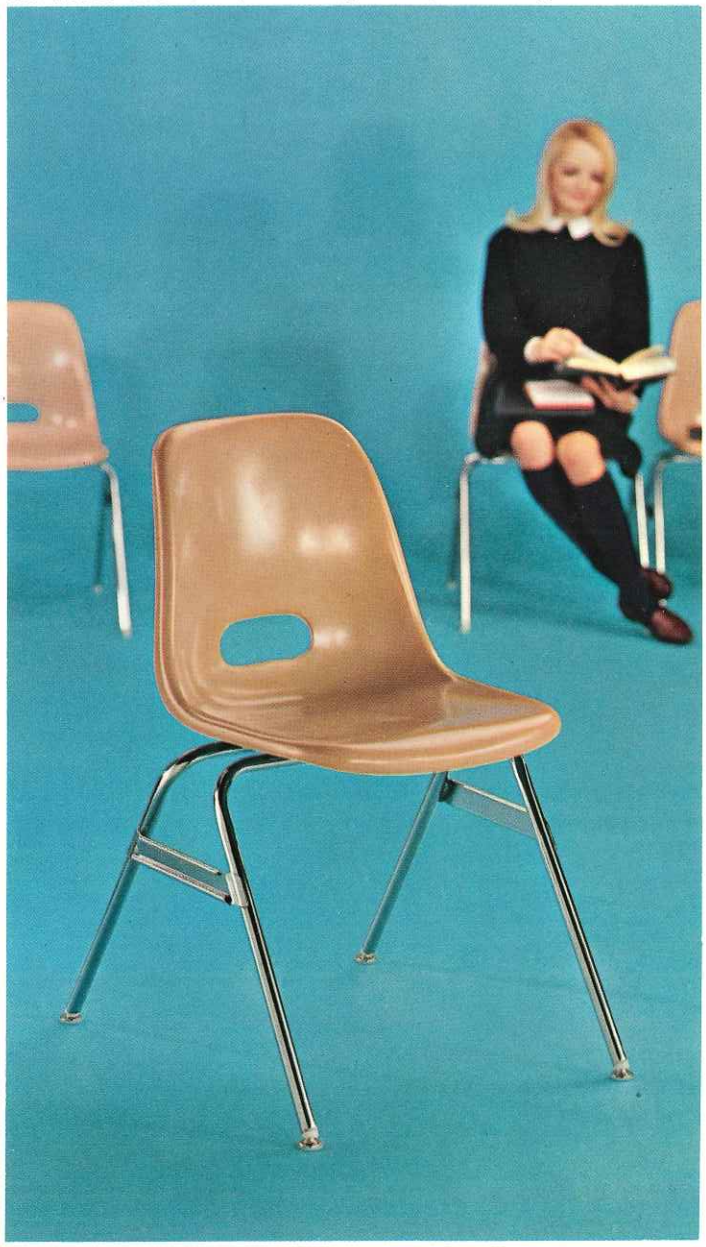
SEAT CUSHION—Naugahyde covered thick foam cushion secures to seat with Velcro fasteners and lifts easily for cleaning. Available in choice colors.

KRUEGER 4000 SERIES FIBERGLASS STACK CHAIRS

Comfortable fiberqlass chairs in juvenile thru adult sizes

Krueger's 4000 Series is especially designed to meet complete seating requirements for students of all ages. Seat heights range from 12 to 18 inches from the floor in increments of one inch. The ultra-strong fiberglass shell features a heavy-duty molded thickness of .130, and frame construction similar to Krueger's standard size fiberglass chairs. Leg spreads are narrower in proportion to the narrower width of the seats, permitting more seating units per area than other standard size fiberglass chairs. These features make Krueger 4000 Chairs ideal for mass-seating applications.

No. 4000-18 Stack Chairs; Sand Beige shells, Chrome legs.



Standard feature

STACKING—Series 4000 Chairs stack safely 5 high on X-frame dolly with roller bearing casters for mobility.

Optional extra

GANGING—Gang in rows simply by interlocking steel loops located on cross-braces. To order add "G" to model number.

WALL SAVERS—With rear legs against baseboards, backrest remains inches away; prevents mars and scrape damage.

Specifications

CHAIR BODY: One-piece seat and back of contour shaped glass reinforced polyester with molded-in opening at lower back (on Side and Stack Chairs only) for ventilation and roomier seating comfort. **Fiberglass thickness: 3000 Series**-.150; **4000 Series** .130. Four "molded-in" studs on fiberglass seat shell attach to leg frame steel straps or, pedestal adapter with self locking "kep" nuts.

LEG FRAME: 3000 Series — Two leg sections of 14-gauge, ⅝" o.d. electronically seam-welded steel tubing on Stack Chairs — (Side and Arm Chairs have 16-gauge x ¾" o.d. X-frame construction) — Connected by two heavy-gauge die-formed steel seat straps securely welded to form one-piece integral unit. **4000 Series** — Two leg sections of 16-gauge, ¾" o.d. electronically seam-welded steel tubing with o.d. electronically seam-welded steel tubing with same construction as above. Models 4000-12 and 4000-13 feature 14-gauge ⅝" o.d. leg section tubing.

STACK LEG CROSS-BRACES: Die-formed steel **(3000 Series**—14-gauge steel; **4000 Series**—16-gauge) with full curl at top and bottom edges for added strength — securely welded to frame sections.

FEET: Non-rusting, Chrome-plated brass with self-leveling, non-marring nylon glides. Rigidly secured, yet easily replaceable.

LEG FINISHES: 3000 Series — Choice of Chrome-plated or dull-finished Black urea baked-on enamel. Pedestal Bases in Satin Brushed aluminum. **4000 Series** — For Model numbers 4000, Chrome-plated; Model numbers 4001, dull-finished Black. Also available in Beige or metallic finishes in Azure Grey, Golden Tan, Carib Blue, or Mist Green baked-on enamels. Specify choice.

PEDESTAL BASE (3205, 3005 Chairs only): Cast aluminum 4-leg base with satin-like brushed finish. Seat swivels on lifetime lubricated nylon bearings, adjusts from 17"-19" high (Side Chairs); 18½"-20" high (Arm Chairs). Glides standard; casters optional.

CASTERS (3005, 3205 Chairs only): 2" Swivel casters with lifetime nylon bearings, non-marring wheels; or, Bassick ball-type casters, with Chrome-plated 2" diameter wheels and treads, are optional at slight additional cost.

FIBERGLASS COLORS: Sand Beige, Shallow Aqua, Ebony Black, Pearl White, Ensign Blue, Forest Green, Mandarin Red or Colonial Yellow. See inside back cover for color samples.

UPHOLSTERED SHELL (3000 Series only): Upholstery is fitted to front and back of chair body and sealed to the shell. **Side and Stack Chairs** — ¾" Thick foam padding covered with U.S. Naugahyde Chromata. **Arm Chair** — 1½" Foam seat cushioning and ¾" foam-padded arm and backrest support areas above decorative cane welting.

UPHOLSTERY COLORS: U.S. Naugahyde Chromata (All Chairs) or 100% Spot-Shed rayon fabric (Arm Chair). For color selection, see inside back cover.

SEAT CUSHION (3000 Series only): Naugahyde covered cushion secures to seat with Velcro fasteners (2 sewn to underside of pad and 2 matching surfaces fastened to shell). Permits easy removal for cleaning. Foam cushion tapers from 2" thickness for added comfort. See inside back cover for color selections.

PACKING: See Krueger Price List for packing and shipping weights.

KRUEGER *Hostess* FOLDING BACK/STACK CHAIRS

Distinctive, unique styling, refreshing comfort — stacking convenience

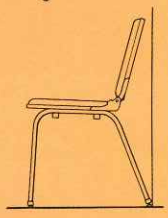
Krueger's Hostess "Stackables"* — the FOLDING BACK/STACK Chair features upholstered seat and fold-down backrest of unmatched comfort. Nylon bumpers align stacks to 12 high that clear 80″ doorways, and protect Brushed Satin Brass or Chrome finishes of the chair's wide-stance, square-tubular legs. Interchangeable seat and backrest panels are cushioned with ¾″ foam and upholstered in 12 mix-or-match colors of Spot-Shed 100% rayon fabric and/or long-wearing U. S. Naugahyde Chromata.

*Trademark

No. HS-604; Nugget and Tiger Lilly fabric, metallic Golden Tan frame, Brushed Satin Brass legs.

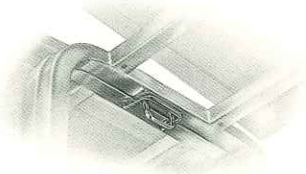
Standard features

STURDY CONSTRUCTION – Leg sections of ⅞″ 18-gauge seam-welded steel tubing are firmly welded together and unitized to seat with solid steel rivets. Four nylon stack guides assure positive stack alignment, protecting chair finish and preventing stack from slipping.



WALL SAVERS – Extended rear legs keep backrest away from wall – protecting wall and backrest against unsightly mars and scrape damage.

Optional extra



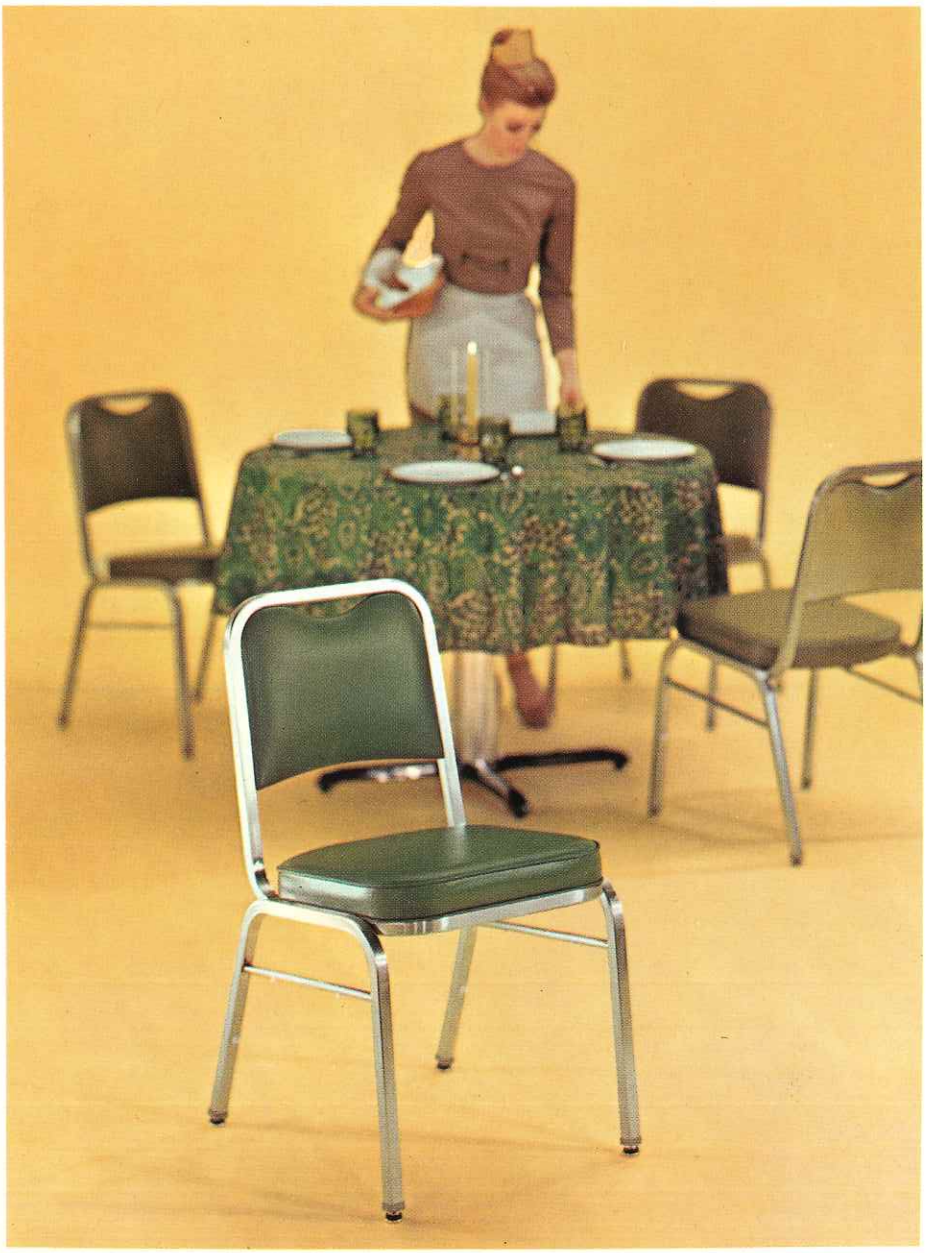
GANGING – Chairs gang securely in rows by simply hooking steel loops of one unit into that of the next chair. Units detach with equal ease. To order, add suffix "G" to model number.

KRUEGER *Hostess* HS-504 UPHOLSTERED STACK CHAIRS

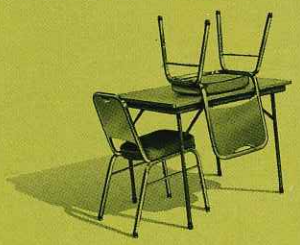
Colorfully distinguished styling... comfort and storage convenience for large or small groupings

Imparting practical elegance and comfort to every restaurant, hotel and institution with double-duty rooms and refined tastes, Krueger's HS-504 Stacking Chair features masterful styling, built-in durability. Soundly engineered, with heavy-gauge square tube steel frame and legs, the rugged HS-504 readily withstands daily abuse and easily stacks for compact storage. Fully upholstered backrest, contoured and foam-cushioned, features hand-hold for easy handling. Seat cushion is extra-thick for ultimate comfort. Twelve mix-or-match upholstery colors and 8 frame finishes add versatile decorator styling, highlight any setting.

No. HS-504 Stack Chair featuring Bronze Green Naugahyde Chromata; Brushed Chrome legs.



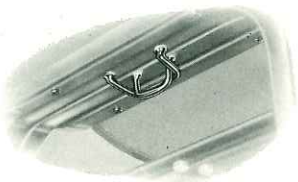
Standard features



UPHOLSTERY PROTECTED – Large, square-cushion seat protects table top and chair from damage while cleaning floors.

STACKING – Cross-braces rest on leg frames, protect upholstery; plastic contacts protect leg finishes. Units stack to any convenient height. X-frame dolly provides easy mobility in and out of storage.

Optional extra



SIMPLIFIED GANGING – Ganging device on leg frames interlock chairs securely in rows. Units detach easily. Add suffix "G" to model number.

KRUEGER *Hostess* DECORATOR UPHOLSTERED FOLDING CHAIRS

The industry's finest... featuring exclusive styling, superb comfort and distinctive color selections

Sleek contemporary lines, generous upholstered areas, and multiple color combinations suggest new decorator versatility for stylized functional interiors. The all-steel design features sturdy, slim-line, oval tubular X-frame, with full-curled seat and back panels securing foam-cushions — easily replaceable when desired. Hostess DECORATOR Chairs are upholstered in richly textured, Spot-Shed treated 100% rayon fabric and/or long-wearing Naugahyde Chromata. See inside back cover for colors.

Mix or match the wide choice of seat and backrest upholstery colors. A unique decorator potential for any exacting interior setting.

No. HD-404; Azure Grey metallic frame with Tiger Lilly fabric.

Standard features

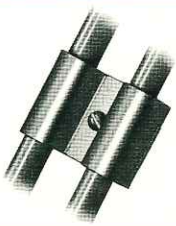
UPHOLSTERY PROTECTION – When Hostess "Decorator" or "Contract" chairs are folded, upholstered areas are fully protected for storage. In use, Hostess Chairs are known for their unique acoustical qualities because of large upholstered areas.

RIGID FRAME – Heavy-duty, 18-gauge 1¼"x9/16" o.d. oval steel tube legs and cross-braces provide maximum stress and strain rigidity. Cross-braces are flattened and formed to leg shape, then resistance welded for added strength.

WALL SAVERS – When chair is opened, rear legs extend beyond backrest, protecting wall and chair from scrape and rub damage.

Optional extra

GANGING – Chairs may be joined in rows simply with ganging clamps at front and rear legs – each three chairs requires four clamps.



KRUEGER *Hostess* CONTRACT UPHOLSTERED FOLDING CHAIRS

The practical designer styled folding chair for colorful institutional installations

Unmatched for structural excellence, distinctive styling and unique folding, at an economy price, Hostess CONTRACT Chairs feature the "hidden strength" of slim-line, oval tubular steel X-frames. Hostess CONTRACT models are distinguished from similar Hostess DECORATOR models by their Tufflex-padded upholstered panels, covered in raw-silk textured vinyl. Versatile combinations of frame and upholstery colors are adaptable to any color scheme. CONTRACT Tablet Arm Chairs feature easy-to-clean plastic laminated writing surfaces. Rigid in use, tablet arms fold conveniently aside for storage.

No. HC-304 — Persimmon upholstery, Carib Blue legs.

Standard features

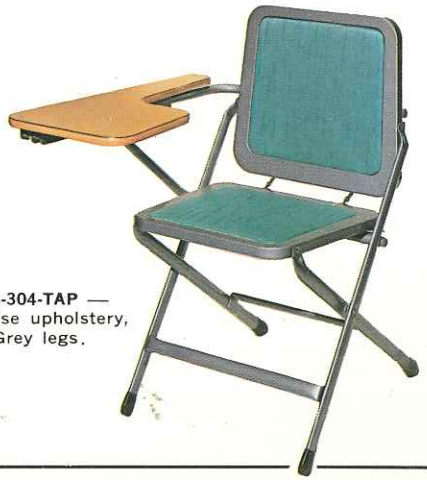
RIGID FRAME – Heavy-duty, 18-gauge 1⅛"x⁹⁄₁₆" o.d. oval steel tube legs and cross-braces provide maximum rigidity under stress and strain. Cross-braces are flattened and formed to leg shape and welded for added strength.

WALL SAVERS – Extended rear legs keep backrest away from wall – protects wall and chairs against unsightly mars and scrapes.

FOLDING TABLET ARM lifts and folds aside for easy seating accessibility... folds flat to chair frame for compact storage.

Optional extra

GANGING – Chairs join in rows simply with ganging clamps at front and rear legs, 4 clamps required for each three chairs.



No. HC-304-TAP — Turquoise upholstery, Azure Grey legs.

KRUEGER *Hostess* CHAIRS

Color combinations

Hostess "Folding Back/Stack" Chairs offer an unusually versatile fabric/frame color selection to harmonize with their Brushed Satin Brass (B) or Brushed Satin Chrome (C) leg finishes. Here are some decorator recommended combinations:

Beige Frame: Cream, Poppy, Teal or Tiger Lilly (C or B)

Golden Tan Frame: Cream (C)

Azure Grey Frame: Midnight Black or Nugget (C or B); or Flag Blue (C)

Mist Green Frame: Beaver or Midnight Black (C); or Teal (C or B)

Carib Blue Frame: Cream or Flag Blue (C or B); or Midnight Black (C)

Hostess "Decorator" Chairs suggest unusually colorful effects by mix or matching contrasting upholstery fabric colors on seat and backrest to harmonize with the frame color in these suggested combinations:

ONE AND TWO COLOR EFFECTS:

Beige Frame: Poppy or Cream

Golden Tan Frame: Cream or Nugget

Azure Grey Frame: Midnight Black or Tiger Lilly

Mist Green Frame: Teal or Cream

Carib Blue Frame: Cream or Flag Blue

THREE COLOR EFFECTS:

Beige Frame: Tiger Lilly and Cream; Teal and Beaver

Azure Grey Frame: Cream and Tiger Lilly; Teal and Midnight Black

Carib Blue Frame: Cream and Flag Blue; Teal and Midnight Black

Golden Tan Frame: Poppy and Beaver; Cream and Nugget

Mist Green Frame: Teal and Flag Blue; Cream and Beaver

Note: When specifying 3-color effect, please indicate which colors are to be used on seat and on backrest.

Hostess "Contract" Chairs are offered in six vinyl colors to harmonize or contrast with chair frame colors:

ONE AND TWO COLOR EFFECTS:

Golden Tan Frame: Yellow or Natural

Azure Grey Frame: Persimmon or Black

Beige Frame: Yellow or Natural

Mist Green Frame: Mist Green

Carib Blue Frame: Turquoise

Storage dolly

Compact, heavy-duty steel X-frame dolly securely holds chairs for non-tip stacking to any convenient height. Roller-bearing swivel casters add easy mobility in and out of storage.

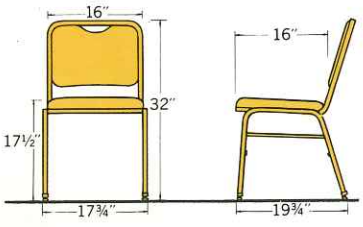
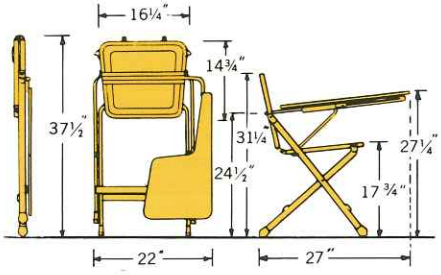
Model HC-304; HD-404



Model HS-504



Model HC-304-TAP

Specifications

GENERAL

LEG FRAMES: Decorator/Contact — Heavy-duty 18-gauge cold-rolled carbon steel tubing, electronically seam-welded. 1⅛" x ⅞" Oval cross-section for greatest rigidity. Flattened ends of oval leg braces are formed to frame and welded. Seat and back frames are secured to frame with reinforced solid steel rivets. **Folding Back/504 Stack Chairs** — ⅞" 18-Gauge electrically seam-welded square steel tubing. Folding Back-Stack frame secured to seat by ¼" x 1¼" solid steel rivets. 504 Stack legs and frame integrally welded to form rigid unit. Leg cross braces of ½", 18-gauge round steel tubing.

FEET: Decorator/Contract — Non-marring Super Dylan; easily replaceable when worn. **Folding Back/504 Stack Chairs** — Grey polytop cap with self-leveling, rubber-cushioned, Nickel-plated glide.

SEAT AND BACKREST FRAMES: Decorator/Contract/Folding Back-Stack Chairs — Identically shaped seat and backrest panel/frames of 20-gauge cold-rolled steel. Full curled frame secures upholstered panels, adds strength and safety in handling.

FRAME COLORS: Decorator/Contract/504-1 Stack Chair — Entire frames are electrostatically spray painted in synthetic urea baked-on enamel — Beige, or metallic finishes in Golden Tan, Mist Green, Carib Blue, or Azure Grey. Model 504-1 also available in Black. **Folding Back/Stack Chair** features seat and backrest frames in above finishes, except Black, with choice of Brushed Satin Chrome and Brushed Satin Brass plated leg sections. **504 Stack Chair** features Brushed Brass or Brushed Chrome finishes.

UPHOLSTERY COLORS: See inside back cover for selection available.

GANGING: Folding Back/504 Stack — Steel loops on each leg frame interlock and detach with ease. Add suffix "G" to model number.

PACKING: See Krueger Price List for packing, shipping information.

HOSTESS DECORATOR (HD-404) FOLDING BACK/STACK (HS-604)

REPLACEABLE UPHOLSTERED CUSHIONS: Fiberboard base with bonded ¾" thick foam cushion covered in Spot-Shed treated 100% rayon fabric with latex-coated back, or in service weight U.S. Naugahyde Chromata.

HOSTESS CONTRACT (HC-304)

REPLACEABLE UPHOLSTERED CUSHIONS: Fiberboard covered with thick Tuflex padding and Masland Duran Luxor Vinyl (Silkeen pattern). Upholstery panels secured with 4 screws.

504/504-1 STACK

UPHOLSTERED BACKREST: ½" Thick foam bonded to ⅝" curved plywood panel attached to frame with 4 screws. Back is steel plate finished to match frame.

UPHOLSTERED SEAT: 1¾" Thick foam cushion mounted to ½" particle board panel and upholstered — secured to frame with 5 screws; easily replaceable.

KRUEGER 100 SERIES TUBULAR STEEL FOLDING CHAIRS

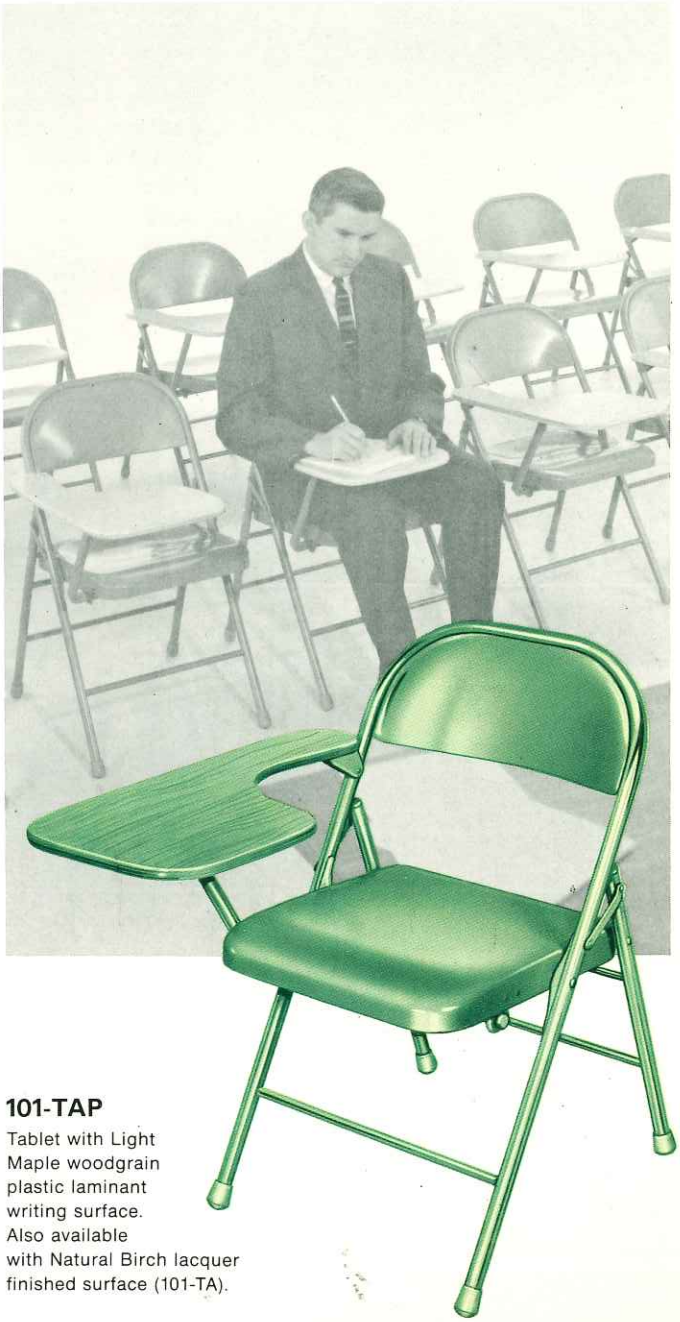
Sturdy "Y" type design... the standard of excellence in beauty, strength and durability

Krueger's 100 Series Chairs are designed to meet every seating requirement with four distinctive models. Quality-engineered structural features include: three frame cross-braces, seat pivot rods of ¼" tempered steel, and vertical frame strengtheners to reinforce frame at seat pivot. Simultaneous welding of chair's heavy-gauge, large diameter tubular frame and *three* structural cross-braces result in Krueger's famous "Uni-weld Frame Construction" — unequalled for strength and durability.

101
All-steel, with curved steel backrest and one-piece shaped and drawn steel seat. All model frames in choice of five select colors.

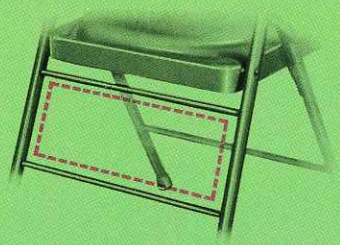
102
Curved steel backrest and 5-ply, select hardwood veneer, contour-curved seat; 5/16" thick. Natural lacquered finish.

104
Features 1" foam padded seat and ½" Tufflex pad on backrest. Cover of 27 oz. elastic-backed vinyl. **No. 103** — Padded seat only.



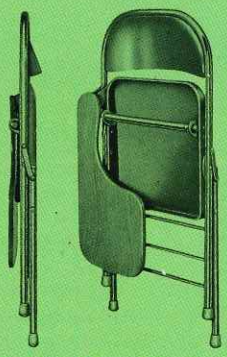
101-TAP
Tablet with Light Maple woodgrain plastic laminant writing surface. Also available with Natural Birch lacquer finished surface (101-TA).

Standard features



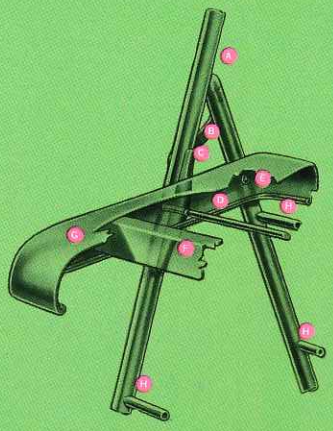
STRONGEST FRAME—To insure vertical alignment, Krueger Chair frames are unitized by not one, but two rear cross-braces of 18-gauge ⅝" steel tubing for extra strength and maximum rigidity.

UPHOLSTERED SEAT—1" Thick foam cushion is bonded to steel seat. Full-seat vinyl cover is bonded to cushion and secured to rolled beaded edge.



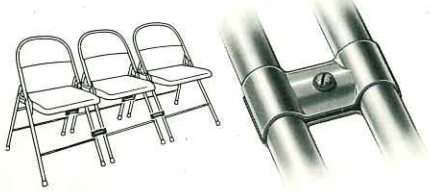
TABLET ARM STORAGE—Tablet arm chair folds flat for storage. Occupies space only 21" wide, 38¾" high, and only 3½" thick.

COINING AND WELDING—Leg brace ends are "coined" or turned in, to form larger, more complete welded surfaces, unitizing components permanently.



- **A PLASTIC BUMPER STOPS** assure solid contact of chair legs.
- **B DOUBLE ACTION HINGES,** synchronized with folding action of seat, provide simplest, safest folding action of any portable chair.
- **C VERTICAL FRAME STRENGTHENERS and SEAT SPACERS** add strength and rigidity to chair frame and prevent frame spreading.
- **D SEAT PIVOT ROD** (anchored to prevent frame spread).
- **E RIVETS** of reinforced steel, connect rear of seat to back legs.
- **F SEAT BRIDGE** of "L" shaped 16-gauge steel is securely welded to seat, to assure seat rigidity.
- **G FULL CURLED EDGE** completely around seat apron adds strength and eliminates safety hazards.
- **H THREE LEG BRACES** of ¾", 18-gauge seam-welded steel add extra rigidity.

Optional extras



GANGING FEATURE—Chairs can be ganged together in series by means of frame clamps attached to front and rear legs. Four clamps are required for each three chairs. Tie-bars are available to raise 3 seats simultaneously.

Specifications

FRAME: 18-Gauge, electrically seam-welded ⅞" o.d. tubing — reinforced with 3 leg braces of ⅝" o.d., 18-gauge tubing, plus ¼" tempered solid steel seat pivot rod. Seat pivot points are reinforced with 6" built-up vertical frame strengthener — seat spacers.

STEEL SEAT: One-piece, 20-gauge, cold-rolled, drawn and shaped steel, with L-shaped seat bridge.

WOOD SEAT: Contour-shaped 5-ply hardwood veneer. Size — 15½" wide, 15⅜" deep and 17⅜" from the floor. Natural satin varnish.

UPHOLSTERED SEAT: Contour-shaped 1" foam cushion bonded to steel seat and upholstered in elastic-backed vinyl. Size — 15½" wide, 16" deep, 18" from the floor.

BACKREST: 8½" Deep, correctly postured, curved 22-gauge cold-rolled steel with full rolled and beaded edge.

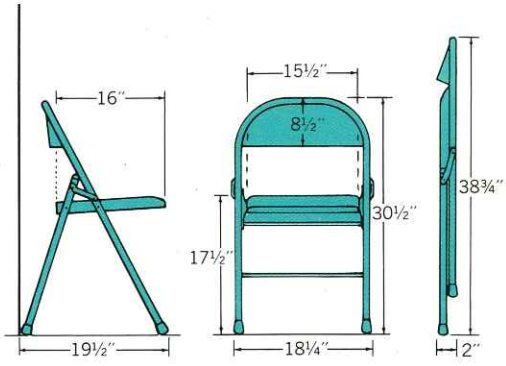
FEET: "Swaged"-on steel glides with replaceable non-marring, slip-over Beige rubber cushions.

FRAME COLORS: Electrostatically spray painted in synthetic urea baked-on enamel — Beige, or metallic finishes in Golden Tan, Mist Green, Carib Blue or Azure Grey. See inside back cover for samples.

UPHOLSTERY COLORS: 27 Oz. elastic-backed vinyl in choice of 18 colors. See inside back cover for complete color sampling.

TABLET ARM: ⅝" Thick plywood of 7-ply hot press urea bonded construction with Natural Birch (TA), or 11-ply construction with Light Maple wood-grain plastic laminant surface (TAP), supported by tubular frame secured with formed steel brackets. Size — 21" wide, 30½" high, when open; covers floor area of 21" x 28". Folded, chair measures 38¾" high, 21" wide, 3½" thick. Tablet Arm when open is 25¾" from the floor.

PACKING: See Krueger Price List for packing, shipping information.



WALL SAVERS/SIMPLE SET-UP—When opened, rear legs keep backrest inches away from the wall, protecting against unsightly rub marks and scrapes. Note how floor perimeter of this Y-type chair allows wider aisles, more chair rows. Chairs fold flat to double frame thickness for storage. Downward push on backrest opens chair, and an upward lift on the seat closes it.

KRUEGER 900 SERIES STEEL FOLDING CHAIRS

Economical seating "Y" type tubular steel construction . . .

Practical, comfortable, functional . . . Krueger 900 Series Chairs feature the same engineering excellence and portable convenience found on all Krueger folding chairs . . . in a popular economy line. Check the extra-large shaped seat and posture-curved backrest. Note the reinforcing members at critical seat pivots. *Three* round seam-welded cross braces add stability, and Krueger's "Uni-weld Frame" simultaneously welds frame and cross members into one rigid unit. The basic all-steel design features supported vinyl upholstered seat and backrest options.

901

All-steel chair. Curved steel backrest, shaped and formed seat; both have fully curled edges for strength and safety.

903-TAP

Features Light Maple plastic laminated writing surface. **No. 903-TA**—lacquered Natural Birch surface. Tablet arm available on 904 Chairs.

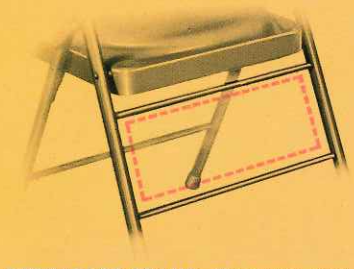
904

All-steel frame. ½" Tufflex padded seat and backrest is covered with vinyl. **No. 904-S**—same as 904 with 1" foam padded seat.

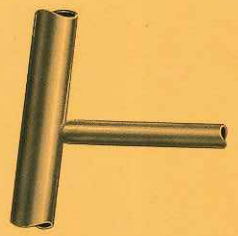
903-S

All-steel frame. 1" Foam cushioned seat is covered in 27 oz. elastic-backed vinyl **No. 903**—Same chair with ½" Tufflex padded seat.

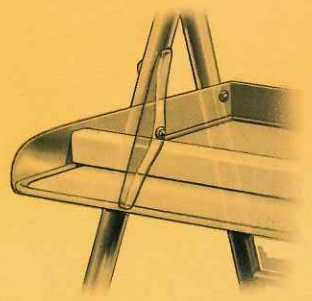
Standard features



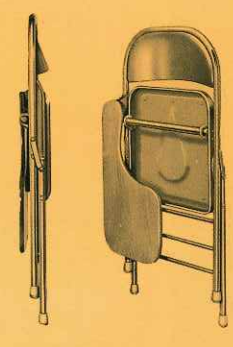
STRONGEST FRAME—To insure vertical alignment, Krueger Chair frames are unitized by not one, but two rear cross-braces of 18-gauge ⅝" steel tubing for extra strength and maximum rigidity.



COINING AND WELDING—Leg brace ends are "coined" or turned in, to form larger, more complete weld, unitizing components permanently.



FRAME SUPPORT—Six-inch frame strengtheners on front legs provide rigid support at critical seat pivot, and prevent frame from spreading.



SIMPLE FOLDING—Tablet arm folds flat for storage. Slight downward push on backrest opens chair, upward lift closes it easily.

Optional extra

GANGING FEATURE—Chairs can be ganged together in series by means of frame clamps attached to front and rear legs. Four clamps are required for each three chairs. Tie-bars are available to raise 3 seats simultaneously.

Specifications

FRAME: 18-Gauge electrically seam-welded ⅞" o.d. tubing, reinforced at pivot points with 6" frame strengtheners and seat spacers, 3 leg braces of 18-gauge ⅝" o.d. steel tubing.

SEAT: One-piece 20-gauge, cold-rolled drawn and shaped. L-shaped steel seat bridge not available with upholstered seat models. Sizes — 15½" wide, 16" deep, 17½" from the floor.

UPHOLSTERED SEAT: Recessed seat securely holds upholstered hardboard panel. Cushioning is ½" Tufflex on No. 903 and 904 Chairs, 1" foam on 903-S and 904-S, covered with 27 oz. elastic-backed vinyl for durability.

BACKREST: 8½" Deep, correctly curved and postured 22-gauge cold-rolled steel panel with full rolled edge. Replaceable upholstered backrest panel (904/904-S Chairs) of ½" Tufflex, on hardboard base, securely mounted to backrest.

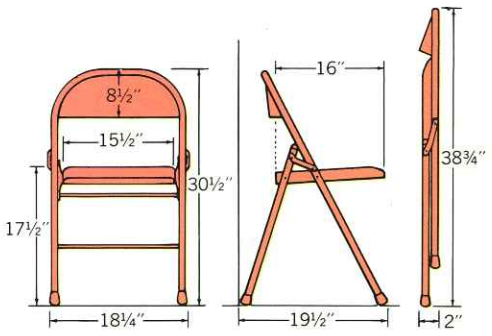
FEET: Beige, non-marring, slip-over Super Dylan feet; securely fastened, replaceable.

TABLET ARM: ⅝" Thick plywood of 7-ply hot press urea bonded construction with Natural Birch (TA), or 11-ply construction with Light Maple woodgrain plastic laminant surface (TAP) supported by tubular frame secured with formed steel brackets. Chair size — 21" wide, 30½" high, when open; covers floor area of 21" x 28". Folded, chair measures 38¾" high, 21" wide, 3½" thick. Tablet Arm when open is 25¾" from the floor.

FRAME COLORS: Electrostatically painted in synthetic urea baked-on enamel — Beige, or metallic finishes in Golden Tan, Mist Green, Carib Blue or Azure Grey.

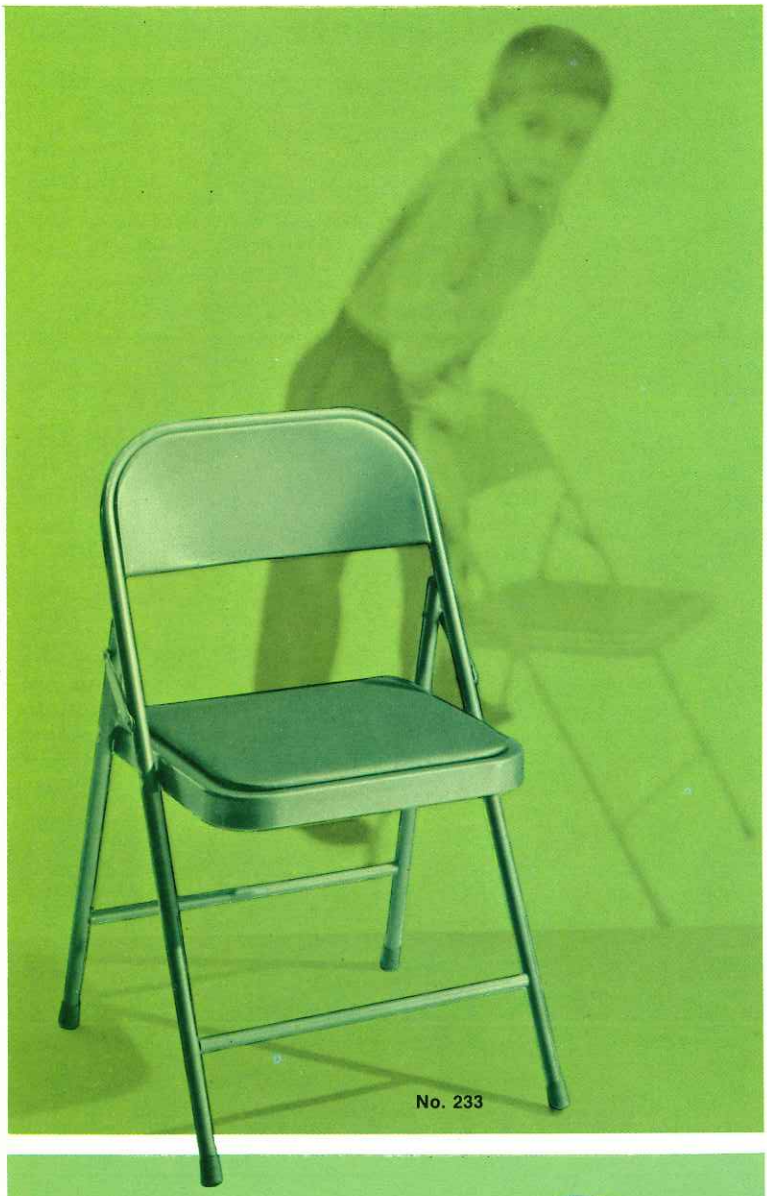
UPHOLSTERY COLORS: 27 Oz. elastic-backed vinyl in 18 colors. See inside back cover for colors.

PACKING: See Krueger Price List for packing, shipping information.



WALL SAVERS/SIMPLE SET-UP—When opened, rear legs keep backrest inches away from the wall, protecting against unsightly rub marks and scrapes. Note how floor perimeter of this Y-type chair allows wider aisles, more chair rows. Chairs fold flat to double frame thickness for storage. Downward push on backrest opens chair, and an upward lift on the seat closes it.

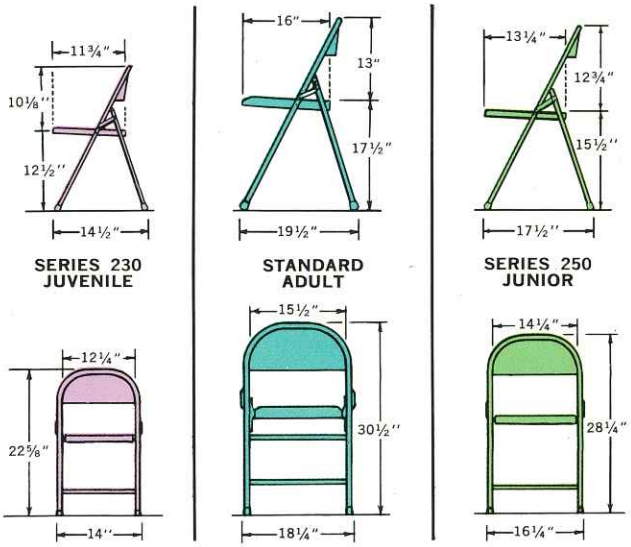
KRUEGER JUVENILE/JUNIOR STEEL FOLDING CHAIRS



No. 233

Youth size "Y" type folding steel chairs

Designed specifically for the safety of "active" children, Krueger Juvenile and Junior Chairs feature the care-free durability of all-steel, non-collapsing Y-frames. Chairs are well-balanced for non-tip safety under the most vigorous use. Curved backrests plus steel or upholstered seats assure correct posture seating comfort. No pinched fingers with safety hinges. No sharp edges or corners to snag clothing. Chairs open and close with a single motion, and incorporate all the outstanding qualities of Krueger adult-size chairs.



JUVENILE CHAIRS

No. 233 – Curved steel backrest, padded and upholstered seat, in full range of vinyl colors.
No. 231 – Same chair with one-piece recessed steel seat, full-curled safety edges.

JUNIOR CHAIRS

No. 251 – Curved steel backrest, one-piece saddle-shaped steel seat.
No. 253 – Same chair with padded seat and upholstered in colorful range of elastic-backed vinyls.

No. 251

Specifications

FRAME: Heavy-gauge, electrically seam-welded tubular steel. **230 Series:** 20-Gauge, ⅝" o.d. — **250 Series:** 18-Gauge, ¾" o.d.

BACKREST: Deep, correctly postured and curved,, cold-rolled steel with fully curled and beaded edge — securely welded to frame. **230 Series:** 5½" Deep — **250 Series:** 6⅞" Deep.

STEEL SEAT: One-piece, 20-gauge cold-rolled, drawn and shaped steel with fully rounded corners and curl beaded edges.

UPHOLSTERED SEAT: Tufflex pad on hardboard panel, covered with 27 oz. elastic-backed vinyl, secured to recessed steel seat.

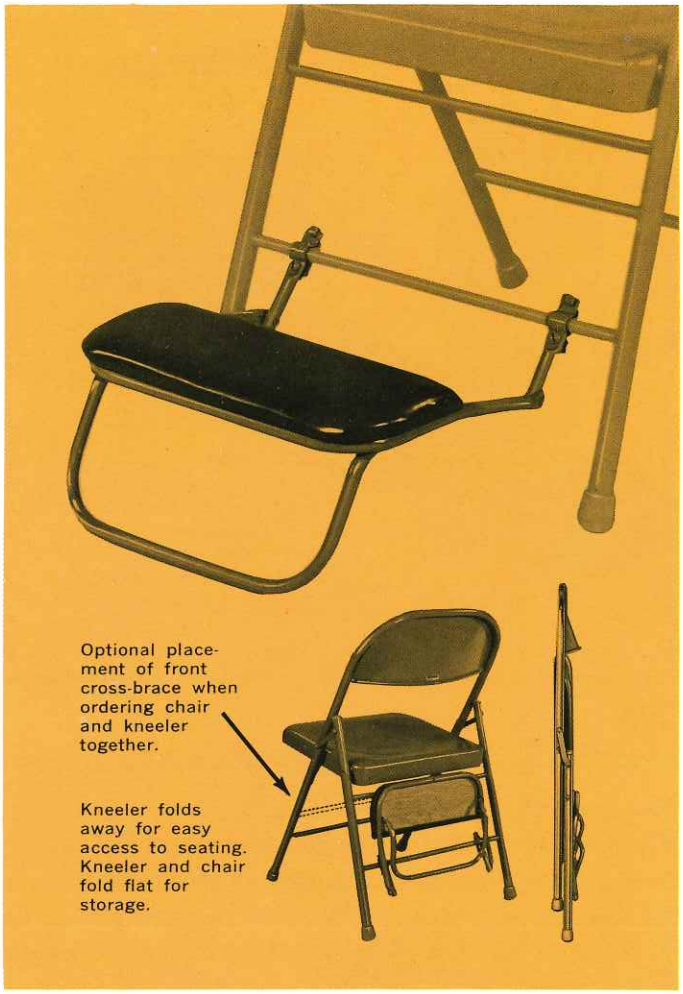
UPHOLSTERY COLORS: 27 Oz. elastic-backed vinyl in choice of 18 colors. See inside back cover for colors.

FRAME COLORS: Beige, or metallic finishes in Golden Tan, Mist Green, Carib Blue or Azure Grey.

FEET: Beige color, non-marring, slip-over Super Dylan feet; securely fastened, but easily replaceable when worn.

PACKING: See Krueger Price List for packing, shipping information.

Fold-away Detachable Kneeler



Optional placement of front cross-brace when ordering chair and kneeler together.
Kneeler folds away for easy access to seating. Kneeler and chair fold flat for storage.

Quickly converts any adult-size Krueger chair (and some competitive models) into a portable pew for temporary or auxiliary church seating. Kneeler attaches to rear leg brace, easily folding up to permit row access and leg room, and does not interfere with chair's foldaway storage. The tubular steel kneeler has a vinyl-covered foam rubber cushioned kneeling pad.

Specifications

FRAME: Heavy-duty 16-gauge, electrically seam-welded ½" o.d. tubular frame. Clamps fit any Krueger adult-size series chairs, and most other makes of tubular steel chairs.

KNEELER: Firm base, covered with thick foam rubber cushion upholstered with tough, durable elastic-backed vinyl.

SIZE: 14½" Wide x 5¼" deep, 6" high. 13" Overall depth including frame clamps.

COLORS: Beige, or metallic finishes in Golden Tan, Mist Green, Carib Blue or Azure Grey. Kneeler upholstery of 27 oz. supported vinyl in choice of 18 colors. See inside back cover for colors.

PACKING: See Krueger Price List for packing, shipping information.

Detachable Hymnal Rack with Communion Tray

Hymnal Rack and Tray hold 2 Communion Cups, 2 Hymnals, Pencils and Cards—arranged for easy removal. Attaches easily to inside of back legs and cross-brace, and detaches with equal ease.

The economical accessory so useful for small churches and auxiliary worship rooms. Without inhibiting the chair's foldaway convenience, the hymal rack attaches simply and firmly to leg braces of any Krueger adult-size chair (and most competitive models as well) with a single wing nut. The open-end, all-steel design serves two worshipers, permits quick, easy cleaning.

Specifications

RACK: Heavy-gauge curved and formed steel, with curled and rolled safety edges. Communion cup brackets, card holders and attachment bracket secured with electrical welding.

SIZE: 15½" Wide — plus attachment arm, 5" high front (7" high back). 2⅛" Thick — plus card holder thickness.

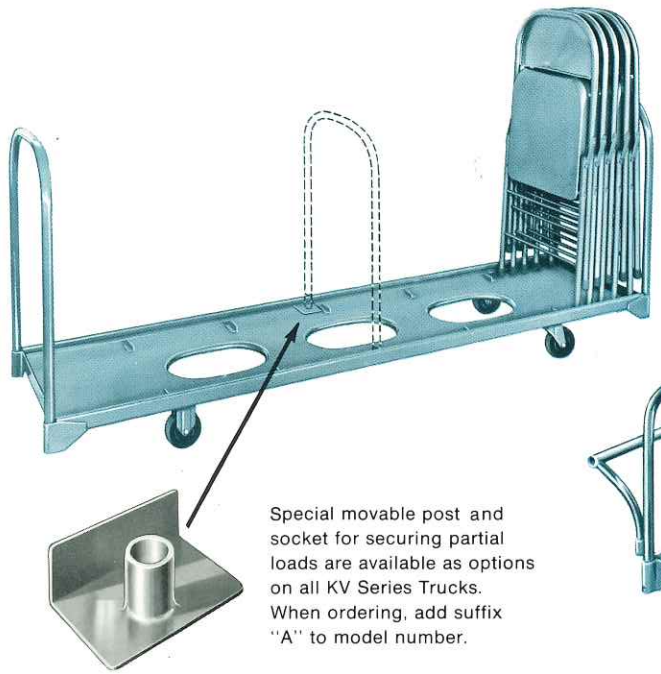
COLORS: Beige, or metallic finishes in Golden Tan, Mist Green, Carib Blue or Azure Grey.

PACKING: See Krueger Price List for packing, shipping information.

REPLACEMENT FEET

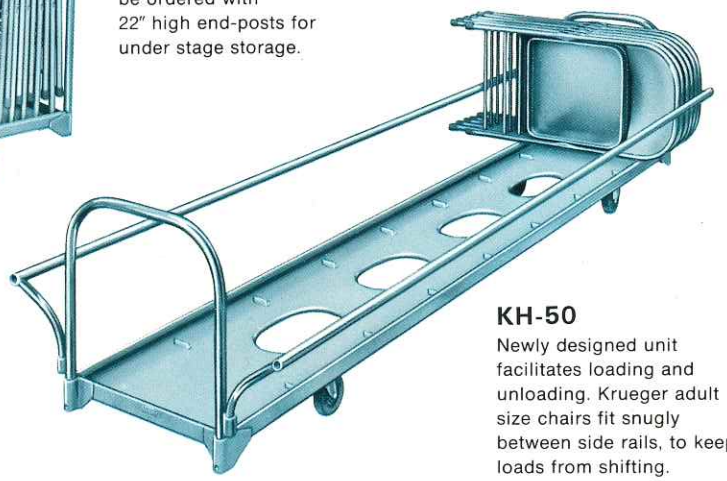
All Krueger chairs are furnished with long wearing feet of Rubber or Super Dylan as "standard". Through prolonged wear and rugged use, the feet may become worn. Replacement feet are the same high quality as original equipment and are easily slipped onto chair legs.

KRUEGER ALL-PURPOSE CHAIR CADDIES



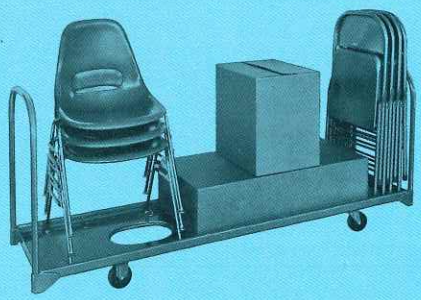
Special movable post and socket for securing partial loads are available as options on all KV Series Trucks. When ordering, add suffix "A" to model number.

KV-35
Krueger "KV" Series Caddies store chairs vertically in models with 25, 35 or 50 chair storage capacities. They may be ordered with 22" high end-posts for under stage storage.

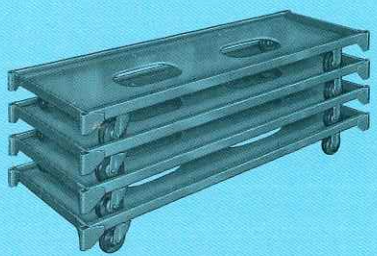


KH-50
Newly designed unit facilitates loading and unloading. Krueger adult size chairs fit snugly between side rails, to keep loads from shifting.

Standard features



GREATER VERSATILITY IN USE—Flat-bed design of KV Series Trucks permits use of empty units as utility carriers of heavy, bulk items. **Caddy Storage**—With end-posts removed, the trucks can be stacked for convenient storage.



Maximum versatility in handling and storage

Krueger Chair Caddies double the practical convenience of folding chairs by facilitating setup and storage. Although solidly constructed for years of hard use, these caddies are amazingly agile and easy to move, even when fully loaded. Krueger Furniture Caddies feature one-piece solid bed designs of 16-gauge steel with models for vertical and horizontal chair storage. Standard arrangement of caddies' 4" roller-bearing, rubber-wheeled casters is two swivel and two fixed; 4 swivel casters are optional. Empty caddies can be stacked for convenient storage.

Model designations

*Width is 39⅞" when loaded with Krueger 100 or 900 Series Chairs.

KV-50-CH

KV-14-24

Chair/Coat Storage Caddies

Krueger's most versatile chair truck! Basic chassis is any size KV Series truck. Top section features a strong tubular steel coat rack frame with cross-members, hanger bar and 5 hat rack bars . . . an ideal practical use for otherwise empty storage trucks.

Model designations

Model Number	Overall Size			Coat Hanger Length	Coat Capacity
	Length	Width	Height		
KV-25-CH	56"	20½"	66½"	53½"	26
KV-35-CH	80"	20½"	66½"	77"	38
KV-50-CH	106"	20½"	66½"	103"	51

Specifications

FRAMES: KV Series — One sheet of 16-gauge steel with sides channeled to 1½" high. To each end, a 4½" x 1½" angle steel member is electrically welded. To each outside corner of the bed is welded a 14-gauge 1¼" o.d. end-post socket to support 1⅛" o.d. 18-gauge end-posts. **KH Series** — Same solid-bed design with side rails fitted into sockets welded to end-posts. Distance between side rails is equal to folded height of chairs from top to bottom cross-brace for snug, orderly storage.

FINISH: Beige color baked-on enamel. Golden Tan, Mist Green, Azure Grey or Carib Blue metallics available at slight extra cost.

WHEELS: Standard caster arrangement — 2 swivel, 2 fixed 4" roller bearing, rubber-wheeled casters. 4 Swivel casters are optional.

COAT RACK FRAME: Sturdy 18-gauge electrically seam-welded ⅞" o.d. tubing. Coat Rack not available as separate unit.

PACKING: See Price List for packing, shipping information.

Hostess Chair Caddies

Utilizing Krueger KV Series solid-bed caddy designs, Hostess Chair Caddies feature tubular steel storage-divider posts with post sockets welded to the caddy bed. On the KV-14-24, one post/socket unit divides caddy into 2 separate loading stations. Similarly, the KV-21-33 is divided by 2 post/socket units. This feature simplifies loading, handling and transport of partial loads. Both models include end-posts in addition to the featured storage divider units. Two non-skid treads of resilient 4" wide 3M Scotch-Tred secured along both sides of the caddy bed prevent chair slippage.

Model designations

Model Number	HC-304	HD-404	HC-304 TAP	Length*
KV-14-24	24	14	15	56"
KV-21-33	33	21	22	80"

*Both Hostess Chair Trucks are 20½" wide, 35" high.

NEW KRUEGER PEDESTAL BASE TABLES

Superbly styled... ruggedly constructed for restaurant applications

Catalog No. 1700 June 1967

Introducing — Commercial tables *par excellence* . . . a completely new collection of distinctive pedestal base tables, masterfully styled by Krueger and built-to-last. Here is superb Krueger quality . . . the design richness to enhance an entire decorating scheme, the versatility to accommodate any need. Strikingly designed bases and columns attest to expert workmanship and are available in a variety of elegant, highly adaptable finishes and color combinations — including Black Wrinkle, Colored or Black Porcelain, Copper, Chrome, Bronze, and Brass. Single and double column styles in each series fit a complete range of table top sizes and shapes. Plastic laminated tops have several styles of perfectly crafted edges, feature a wide assortment of patterns and finishes in sizes ranging from 24″ square or round to 36″ x 96″ rectangular. Choose from over 160 base/top combinations.

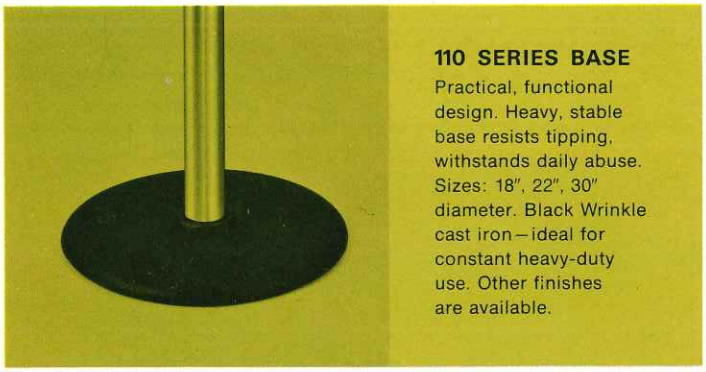
Krueger Cat. No. 1700
June 1967

120 SERIES BASE

Styling simplicity, plus construction rigidity—lends rigid support but table is easily moved on cushioned glides. Shown in rich Walnut laminated Square Edge top enhanced by Chrome column and Black porcelain base. Full array of designer-styled tops and pedestal base finishes to choose from.

150 SERIES BASE

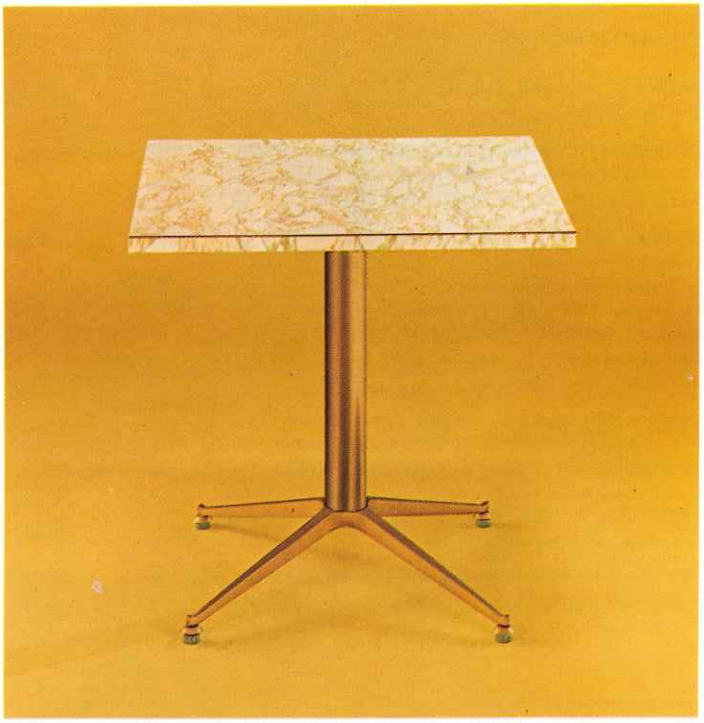
Classic sculptured design lends distinction to contemporary interiors. Choose from a wide variety of column and base finish combinations. Model illustrated combines Black accented Chrome base and Chrome column with Tapered Edge top in Fruitwood plastic laminant . . . only one of 160 base/top combinations.



110 SERIES BASE

Practical, functional design. Heavy, stable base resists tipping, withstands daily abuse. Sizes: 18", 22", 30" diameter. Black Wrinkle cast iron—ideal for constant heavy-duty use. Other finishes are available.

TWIN BASES—All models are available in twin column styling to provide extra rigidity in use with extra large rectangular table tops. Table in photo features 140 Series Base with Drop Edge top.



130 SERIES BASE

Smart, contemporary wide stance leg styling for extra rigidity. Suspended brace design for foot room and easier floor cleaning. Illustrated in striking Brushed Brass base and column to complement the elegant Square Edge Marble laminated top—choose from a wide selection of top sizes, styles and patterns.

140 SERIES BASE

Fashionably refined design . . . care-free maintenance. Available in single and twin column styling, for a variety of table top sizes. Model shown combines Polished Chrome base and column with Drop Edge top in "Mayflower" pattern plastic laminant—a full range of top styles and colors available.

Specifications

BASE PLATE: Solid cast iron with surface-ground and machined bottom.

COLUMN: 110 Series/120 Series have 3" or 4" diameter steel tubing; **130 Series** — 3" Steel tubing; **140 Series/150 Series** — 2" Steel tubing.

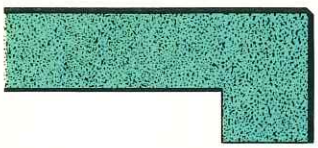
SPIDER: 110 Series/120 Series — 12" x 12", 12-Gauge stamped steel. Can also be furnished with 17" cast iron or 19", 8-gauge stamped steel spider for extra large tops. **130 Series** — Same as 110 and 120 Series but is furnished only with 17" cast iron spider for large tops. **140 Series/150 Series** — 15" Cast iron spiders only.

GLIDES: 120 Series — Plastic bumpers are standard. Bassick self-adjusting or Bassick rubber-cushioned glides are optional at extra cost. **130 Series** — Bassick self-adjusting glides are standard. **140 Series /150 Series** — Bassick rubber-cushioned are standard. Not available on 110 Series.

TOP CONSTRUCTION: Tops are constructed of sturdy, warp-proof particle board; surfaces in any standard Formica pattern. See price list for sizes and shipping weights.

SQUARE EDGE: 1¼" Core, self-edge, 1/16" plastic backing sheet.

TAPERED EDGE: ½" Profile, self-edged; 1½" core, 1/16" plastic backing.



DROP EDGE: 2" Self-edge drop, 1/16" plastic backing sheet.

Note: See price list for all Pedestal Base/Column color combinations and shipping weights.

New construction feature makes these the sturdiest all-purpose folding tables available!

Long recognized for built-in durability, Krueger FOLDING TABLES have been made even stronger. Tubular steel leg sections are now coined and unit welded, increasing strength under stress, assuring longer service. While the standard height is 29", Folding Banquet Tables are now available at other heights between 21" and 29", at slight additional cost. Table tops are strong, lightweight cellular core construction; surfaced in Sandtone hardboard with locked-in aluminized plastic "T" edge; or Light Maple or Imperial Walnut woodgrain plastic laminants with matching "T" edge. Quick and easy to set up, tables lock rigidly for use, fold flat for compact storage. Krueger Adjustable Height Tables grow in height as needs vary, and are especially suited for schools, cafeterias, churches, and banquet halls. Adjustment is simple, and they lock firmly at desired height. Popular Standard Tables, featuring the same time-proven construction, are also available as smart, Square Tubular Leg models. 36" Square Folding Tables have solid core tops and individual knife locks for each leg.

No. NP-6SQ with Imperial Walnut top and edge; Beige apron and legs.

KRUEGER FOLDING TABLES

No. NM-6 in Sandtone top with aluminized plastic edge; Beige apron and legs.

STANDARD FOLDING TABLE

(Above)—Reinforced cellular structure top, surfaced in Sandtone hardboard or woodgrain plastic laminants. Tubular steel legs have non-marring Super Dylan feet.

SQUARE TUBE LEG TABLE

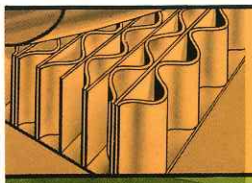
(Below, left)—Same construction as the Standard table, except for square tubular legs and self-leveling steel foot glides.

ADJUSTABLE HEIGHT TABLE

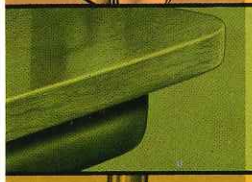
(Below)—Identical to Standard Table for top and folding action. Table has self-locking height adjustment. Top raises from 21" to 33" in 1" increments and locks in place.

SQUARE TABLE

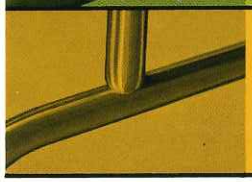
(Below right)—36" x 36" Solid core table in Light Maple plastic laminant only. Each tubular steel leg has knife lock.



CELLULAR STRUCTURE TOPS—Strong, dimensionally stable and lightweight "honeycomb" cellular construction. Top resists moisture penetration and the resulting warp.



NEW HANDSOME SELF-EDGED TOPS—Plastic edge strip absorbs bumps, harmonizes with plastic laminated top. Aluminized plastic edge is standard with Sandtone hardboard tops.



NEW COINED/WELDED LEG SECTIONS—Steel tubing is "coined" or turned in to enlarge weld area, then resistance-welded, unitizing components permanently to increase structural strength.

No. NP-6A in Light Maple top and edge; Beige apron and legs.

No. WP-3 in Light Maple top and edge; Beige apron and legs.

KRUEGER FOLDING TABLES

Specifications

GENERAL

TOPS: ⅞" Thick; of "honeycomb" cellular construction faced with hardboard or plastic laminant. Under-framing is 16-gauge cold rolled channel steel rounded apron. Tops are standard 29" high. Non-adjusting legs for top heights between 21" and 29" high, in one-inch increments, at slight additional cost.

TOP FINISHES: Light Maple or Imperial Walnut woodgrain high pressure laminated plastic, or Sandtone hardboard are standard. Birch; Grey Linen or Tan Linen are available at no extra cost. Matching plastic "T" edge surrounds top perimeter of Light Maple and Walnut plastic laminated tops. Sandtone hardboard has aluminized plastic "T" edge. See inside back cover for color samples.

METAL FINISHES: Non-chipping Beige baked-on enamel finishes are standard. Dark Brown, Black, metallic finishes in Golden Tan, Mist Green, Carib Blue or Azure Grey are available at no additional cost. See back cover for color samples.

STANDARD FOLDING TABLES

LEGS: Pedestal-type 1" o.d. cold rolled steel tubing with non-marring Super Dylan feet. Flat steel folding and locking device with double braces to each leg.

SQUARE TUBE LEG FOLDING TABLES

LEGS: Same construction thru-out as Standard Folding Table, except legs are 1" sq. tubing with self-leveling steel glides.

ADJUSTABLE HEIGHT FOLDING TABLES

LEGS: Same folding construction as Standard Folding Table. Adjustable height mechanism of die-formed steel. Height adjustment accomplished by telescoping ⅞" o.d. tubing into 1" o.d. tubing. Top adjusts from 21" to 33" in 1" increments.

SQUARE FOLDING TABLE

LEGS: Knife lock devices of die-formed steel. Tubular legs of ⅞" o.d. seam-welded tubular steel.

TOPS: ⅞" Thick 5-ply hot press urea bonded plywood with Light Maple laminated plastic surface only. Matching plastic edge strip around table top perimeter.

PACKING: See Price List for packing, shipping information.

KTV-6 & 8

78" Long, 26" wide and 35" high. Stacks either 6' or 8' long tables on end. Stores up to 10 tables, depending on thickness. Weighs 62 lbs.

KTH-6

78" Long, 26" wide and 35" high. Stacks 6' long tables horizontally, up to 12 tables high, depending on table thickness. Weighs 58 lbs.

KTH-8

99" Long, 26" wide and 35" high. Stacks 8' long tables horizontally, up to 12 tables high, depending on table thickness. Weighs 68 lbs.

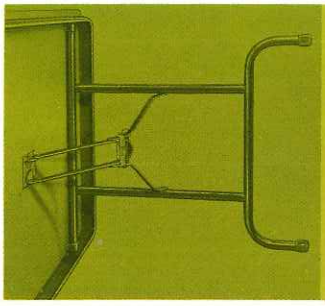
Table Storage Caddies

Drastically reduce set-up and storage time of folding tables. All models feature Chan-Angle heavy-gauge steel bed mounted on 4" roller-bearing, non-marring casters — two swivel, two fixed. Four swivel casters are optional.

Specifications

FRAMES: 1½" x 4½" 16-Gauge angle steel side members electrically welded to 2¼" x 7" channel steel cross members. Removable side or end posts for empty stacking one truck upon the other. Special size trucks available.

FINISH: Beige baked-on enamel.



Separate Leg Assemblies for do-it-yourself projects

Assemblies are available in Krueger's Standard, Adjustable Height, or Square Tube folding leg styles. Units are complete with non-marring Super Dylan feet and heavy-duty steel hardware.

KRUEGER FIXED LEG TABLES

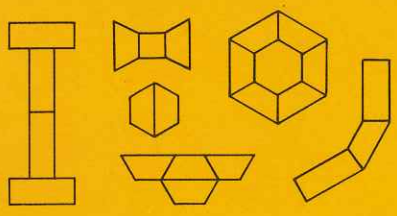
Rugged, sturdy construction for years of carefree use!

Superbly styled and built-to-last, each table features a reinforced "honeycomb" cellular core top to augment strength without increasing weight. Tops are faced with durable, easy-to-clean laminated plastic in Light Maple or Walnut woodgrain finish, with rounded plywood perimeter frame finished in clear lacquer or urea resin varnish. Heavy-gauge tubular steel leg is welded to a steel plate secured to the underside of table top, and features mar-resistant baked-on Beige enamel finish, anodized aluminum ferrules and cushioned steel glides. Optional Adjustable Leg permits easy top height adjustments by the inch from 21" to 29", to meet every age/size seating requirement.

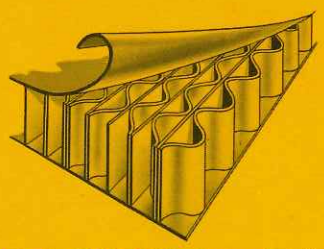
RECTANGULAR TABLE

Shown with adjustable legs, an optional extra. 7 Sizes—24"x48" to 42"x60". Featured are Krueger 4000 Series Fiberglass Stack Chairs.

Standard features



VERSATILE TABLE ARRANGEMENTS—Here are a few of the many table combinations possible with Krueger Fixed Leg Tables. Various geometric shapes allow maximum use of otherwise wasted space.



CELLULAR CORE TOPS—Strong but light tops copy nature's "honeycomb" design principle. This construction is dimensionally stable... resists moisture penetration, thus preventing warpage.

KRUEGER FIXED LEG TABLES

Krueger 1967 June p. 41

SQUARE TABLE
36" Square. An ideal table whether used alone or in combination with other shapes.

ROUND TABLE
48" Diameter. Clean modern design, for use wherever a circular seating arrangement is desirable.

TRAPEZOIDAL TABLE
39"x30"x60" size. A unique geometric shape to meet many functional seating needs.

Optional extra

ADJUSTABLE HEIGHT LEGS—Slotted screw locks telescoping lower leg sections in position for easy adjustment of table top heights between 21" and 29". Adjustable in one inch increments for additional versatility.

Specifications

LEGS: Standard Leg — 18-Gauge steel tubing of 1¼" o.d. tapered to ¾" at foot. **Adjustable Leg** — Top section of each adjustable leg is 1¼" — 18-gauge steel tubing; 1⅛" telescoping lower section tapers to ¾" at foot and locks with slotted screw. Leg is welded to triangular steel plate and braced with 5/16" steel rod support. Legs are fitted with rust-proof anodized aluminum ferrule and self-leveling steel glide.

TOPS: 1¼" Thick, surfaced with 1/16" high pressure plastic laminant on face side and 1/32" plastic sheet on back side. Standard table top height is 29". Adjustable Legs position top between 21" and 29"; adjustable in one inch increments. Adjustable feature is optional at slight additional cost.

FINISH: Top surface in Light Maple or Walnut woodgrain plastic laminant. Grey Linen, Tan Linen and Birch plastic laminants optional at slightly higher price. Top edges in clear high-solid content lacquer; legs in standard Beige enamel.

PACKING: See Krueger Price List for packing, shipping information.

Separate Leg Assemblies for do-it-yourself projects

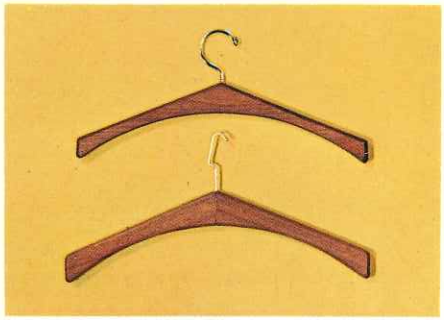
Assembly units are available in Krueger's Fixed Leg and Fixed Leg Adjustable Height table leg sections. Sets include legs and heavy-duty steel hardware necessary to complete one table.

DISTINCTIVE NEW KRUEGER HAT & COAT RACKS

Styling elegance, functional efficiency— Krueger's new Diplomat

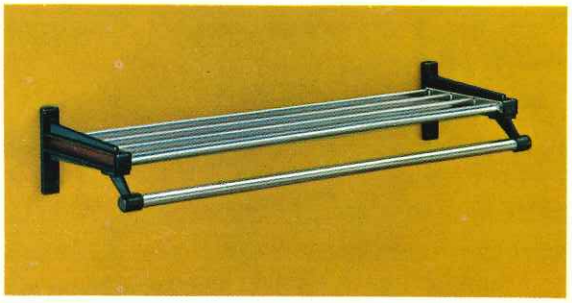
Ideally complementing its famous seating, Krueger's new superbly-styled HAT and COAT RACK line offers the design versatility to blend with any setting, the practical everyday efficiency to expertly manage any hat and coat hanging need. Especially suited for office use, the distinguished DIPLOMAT Series presents striking Chrome steel and Black cast aluminum construction with the warmth of durable Planked Cherry vinyl. Shelves are heavy-duty oval steel tubing, Chrome-plated to a high lustre. Uprights and legs are sturdy rectangular steel tubing. Single-face floor models feature two dust-free hat and parcel shelves, boot shelf and umbrella rack with removable drip tray. Wall Racks are available in one, two or three shelf models. Add-on-units in 3, 4 or 5-foot lengths available for all models.

RICH DECORATOR ACCENT—Polished Chrome oval shelf tubing smartly accentuates Black cast aluminum shelf brackets. Planked Cherry vinyl inserts are standard on floor models. Choice of Brushed Aluminum or Planked Cherry inserts on wall units. Reversible vinyl-covered hanger rail accommodates choice of 4 or 5 hangers to the foot on floor models.



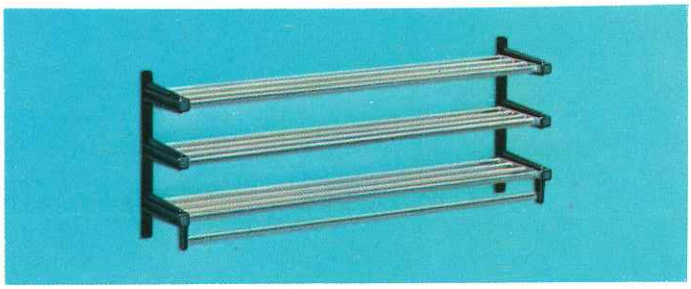
WALNUT HANGERS—Durable solid Walnut designs provide a tasteful decorator accent. Flat stem hangers are supplied with floor models; round stem hangers with wall units.

Richly styled Diplomat Floor Racks feature two shelves, umbrella rack, boot shelf and Walnut hangers. Wall Racks have 1, 2 or 3 Chrome-plated shelves. Both are available in 3′, 4′ or 5′ models.



NEW KRUEGER HAT & COAT RACKS

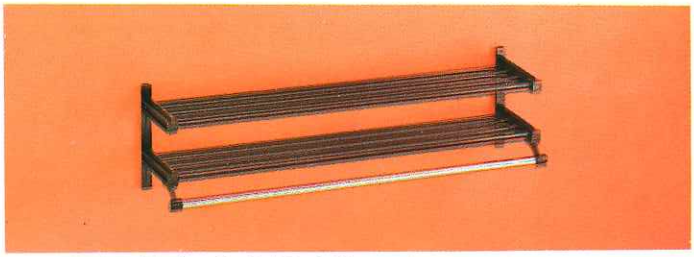
No. DRF4 in Polished and Brushed Chrome and Black.



No. DRW4 in Black with Polished Chrome shelves and hanger rail.

New Krueger Director

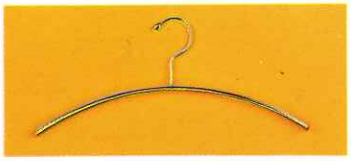
Handsomely designed to efficiently serve a vital office need, the new DIRECTOR Series combines contemporary styling with built-to-last durability. Brushed Chrome upright and legs, Black shelves and shelf brackets, are enhanced by Brushed Aluminum inserts. Floor units are single-face only, 3, 4 or 5-foot long and include three dust-free shelves, an umbrella rack with removable drip tray, boot shelf and Polished Chrome hangers. Wall Racks are Black with one, two or three Polished Chrome shelves and hanger bar. Add-on-units are also available.



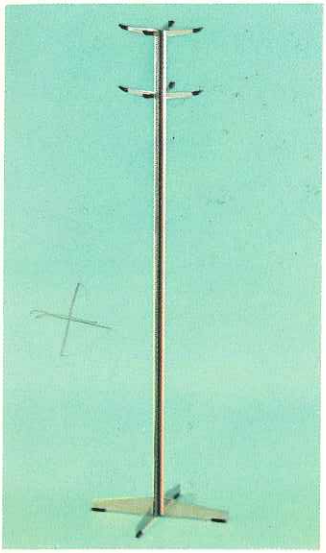
No. CHW24 in Black with Polished Chrome hanger rail.

No. CHF8 in metallic Azure Grey.

New Krueger Chancellor



With sturdy construction and styling simplicity, the new CHANCELLOR Series puts emphasis on functional efficiency. Readily adaptable to any space or convenience need, single or double-face floor models feature a rigid welded leg and upright assembly. Three dust-free shelves, Polished Chrome hanger rail, boot shelf and umbrella rack and Polished Chrome hangers are standard. Choose from a selection of four colorful enamel finishes. Wall units, in contrasting Chrome and Black, are available with one, two or three shelves. Add-on units are also available.



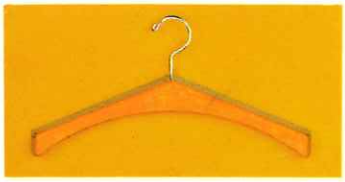
Costumer I

Costumer II

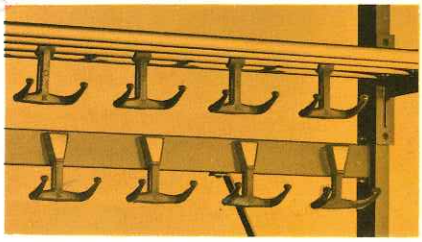
New Krueger Costumer

Convenient, contemporary styled new Krueger COSTUMERS contrast Brushed Aluminum uprights and Chrome legs with dull Black accents. COSTUMER I has Black capped Chrome hooks, Black vinyl accent stripe; COSTUMER II, Black nylon hooks.

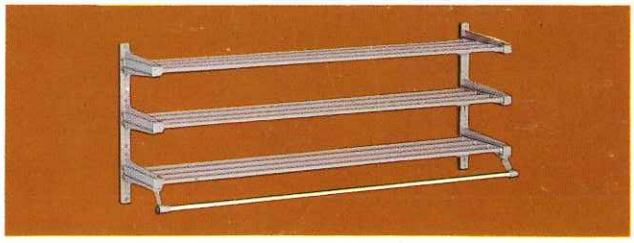
CL1F4 (Classmate I) with Golden Tan metallic finish, Orange inserts.



Plastic hangers are optional.

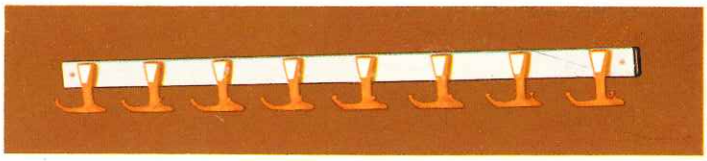


Hooks are rail and shelf mounted.



CL2W34 (Classmate II) in Azure Grey metallic enamel finish.

New Krueger Classmate

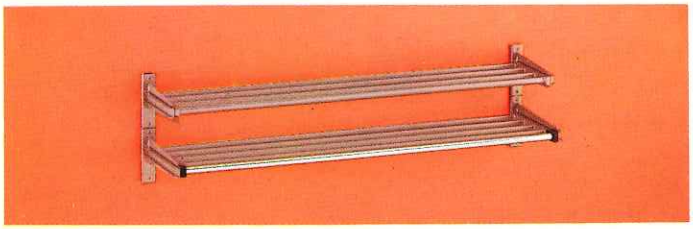


Attractive Brushed Chrome Hook Rail with Orange nylon hooks.

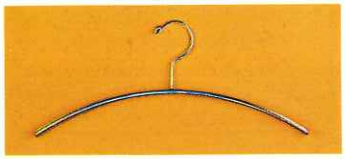
Soundly engineered for long term use, Krueger's rugged CLASSMATE Series utilizes durable, practical design in a versatile selection of models especially suited for school and university. Single and double-face floor models have two shelves and a rigid welded leg and upright assembly with diagonal braces for added strength. Wall racks have one, two and three shelves. Floor and wall racks are available in 3, 4 and 5-foot models in four select colors. CLASSMATE I models feature Chrome shelving and colorful shelf bracket inserts in contrast to the CLASSMATE II's practical all-enamel finishes. Casters, boot shelf, hooks and/or hangers are optional extras. Add-on-units are also available. The handsome Brushed Chrome HOOK RAIL features nylon hooks in four decorator colors, in 3, 4 and 5-foot lengths.

NEW KRUEGER HAT & COAT RACKS

STF8 in Beige enamel finish.



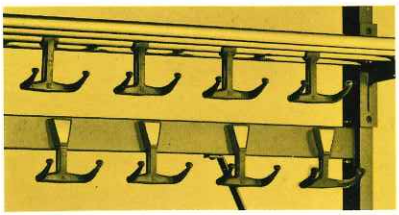
STW8 in metallic Golden Tan finish.



New Krueger Steward

Highly efficient and practical — the new STEWARD series is designed specifically for long-range, heavy-duty usage. With a sturdy welded leg and upright assembly, single and double-face floor models present four easily adaptable enamel finishes, attractively accented by a Polished Chrome hanger rail. Horizontal brace and sway braces afford sturdy support. Boot shelf, hooks, casters and oval tubular steel hangers are optional. Wall racks feature one, two or three shelves. All models and add-on-units are available in 3, 4 or 5-foot lengths.

CMF8 in Azure Grey metallic finish.



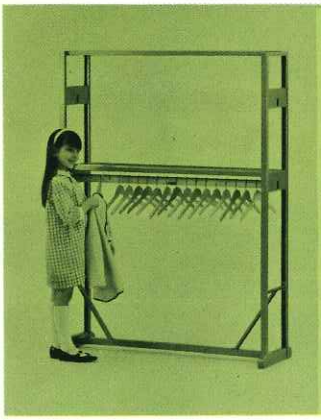
Optional hooks mount to rail and shelves.

Single tag check system.

New Krueger Checkmate

With maximum checkroom efficiency the objective, the smart move is to Krueger's CHECKMATE Floor Racks. Sturdily constructed single and double-face models feature a welded leg and upright assembly, reinforced with diagonal bracing, in a choice of four decorator colors. All models, including add-on-units, are available in 3, 4 or 5-foot lengths and have four shelves. Reversible vinyl-covered hanger rail offers choice of hanger capacities . . . 4 or 5 per foot. Sculptured Beechwood hangers are standard. Boot shelf, casters, nylon hooks and single tag check system are optional. System features easy-to-read plastic snap-on shelf clips, hanger rail numbers and check tags.

M116 in Golden Tan metallic.



Especially suited for classroom use, Minuteman portable racks readily adjust to lower heights, affording important hanging consideration for smaller children. Easily reached shelves provide extra storage convenience.

Krueger Minuteman Portable Racks

Practical and portable, easy-to-assemble MINUTEMAN racks feature single and double-face models and add-on-units in 3 or 4-foot lengths. Units are available in four colorful enamel finishes and feature versatile, reversible hanger rail for choice of 4 or 5 hangers per foot, and dust-free shelves that readily lower to children's height. Casters and hardwood hangers are optional. Add-on-units that adapt racks to any floor plan, are placed between two complete racks only.

Specifications

GENERAL

FLOOR RACK FRAMES: Legs, uprights and horizontal braces of 16-ga. 1" x 2" steel tube. Sway braces add stability. Leg section ends are capped with combination end-cap/foot-glide in Black high-density plastic. Upright ends also covered with Black plastic cap. **Diplomat/Director** — Legs and uprights joined by aluminum casting. **Chancellor/Classmate/Steward/Checkmate** — Legs and uprights securely welded into a single unit.

WALL RACKS: Heavy-gauge steel channel fastens directly to wall. Shelf brackets attach to channel with machine screws and bearing pads. No channels are supplied with single-shelf wall units.

HAT AND BOOT SHELVES: 4 Sections of ¾" oval steel tubing securely welded to steel end sections forming single integral shelf unit. 5-Foot lengths are 16-ga. steel; 3 and 4-foot lengths 18-ga. steel.

SHELF BRACKETS: Diplomat/Director/Chancellor/Classmate/Checkmate — Two sections of die-cast aluminum alloy fastened with machine screws. **Steward**—Heavy-gauge steel; 3 die-formed sections welded into a single unit.

BOOT SHELF BRACKETS: Same construction as Diplomat shelf brackets.

UMBRELLA RACK ASSEMBLY: (Diplomat/Director/Chancellor only)—Similar construction to Diplomat brackets. Umbrella Dish of high-impact Black polyethylene. Drip Pan Insert (Diplomat, Director only) — Polished Aluminum.

HANGER RAIL: Diplomat/Checkmate/Minuteman Floor Racks—18-Ga. formed steel, covered in Beige vinyl to prevent scratches, deaden noises. Reverses with 4 hanger slots per foot on front, 5 per foot on back. **Diplomat Wall/Director/Chancellor/Classmate Floor and Wall Racks** — 16-Ga. 1" o.d. Polished Chrome steel tubing. **Steward Floor and Wall Racks** — 14-Ga. ⅞" o.d. Polished Chrome steel.

HANGER RAIL HOLDER: Die-cast aluminum alloy on all models except Steward, which is Black polypropylene.

HOOK APPLICATIONS: Hook Rail — 16 Ga. 1" x 2" Brushed Chrome steel tubing; ends covered with Black plastic end-caps. **No. H3** — 6 hooks, 3' unit; **No. H4** — 8 hooks, 4' unit; **No. H5** — 10 hooks, 5' unit. Hooks are double prong molded nylon in color choice of Mustard, Blue, Orange and Charcoal Grey. Brushed Aluminum inserts cover fasteners.

DIPLOMAT

FINISHES: All cast aluminum components finished in Black enamel. Uprights and legs covered in textured Planked Cherry vinyl, also used as inserts on shelf brackets and umbrella racks. Polished Chrome shelves.

HANGERS: Sculptured satin-finished solid Walnut. Flat stem hook furnished with Floor Rack; round stem hook with Wall Rack.

DIRECTOR

FINISHES: Floor Racks — Shelves, shelf brackets, sway braces, leg/upright connectors, umbrella brackets and hanger rail holder in Black enamel; Brushed Aluminum inserts. Legs and uprights in Brushed Satin Chrome. **Wall Racks** — Shelf bracket, wall channel and hanger rail holder in Black baked-on enamel. Shelves are Polished Chrome.

HANGERS: 18-Ga. ¾" oval Polished Chrome tubing; furnished.

CHANCELLOR

FINISHES: All components are baked-on enamel in choice of Black, Beige and metallic Golden Tan or Azure Grey. Polished Chrome hanger rail.

HANGERS: 18-Ga. ¾" oval Polished Chrome tubing; furnished.

CLASSMATE

FINISHES: Classmate I — Shelf brackets, uprights, braces in baked-on enamel in choice of Black, Beige and metallic Golden Tan or Azure Grey. Shelf bracket inserts in choice of Mustard, Blue, Orange or Charcoal Grey. Shelves are Polished Chrome. **Classmate II** — Same as above, except shelves are finished to match frame; no shelf bracket insert provided.

HANGERS: High density polyethylene in four decorator colors; optional.

OPTIONS: Hooks, boot shelf, caster wheels.

STEWARD

FINISHES: All metal components, except Polished Chrome hanger rail, are baked-on enamel. Choice of colors: Black, Beige and metallic Golden Tan or Azure Grey.

HANGERS: 18-Ga. ¾" oval Polished Chrome tubing; optional extra.

OPTIONS: Hooks, boot shelf, caster wheels.

CHECKMATE

FINISHES: Same as "Steward".

HANGER RAIL: See "Hanger Rail" in general specifications. Checking numbers are optional. Specify number sequence.

HANGERS: Sculptured, satin-finished, solid Beechwood; furnished.

OPTIONS: Hooks, boot shelf, caster wheels and frame. Check Tags are .078" thick red fiberboard with large yellow numerals. Shelf Clips are clear plastic with large numerals. Specify number sequence.

MINUTEMAN

FRAME: 18-Ga. steel frame, braced at top by 20-ga. rails and spacers, and at sides by four 16-ga. plates. 16-Ga. stringer bar stabilizes ends. Finishes same as "Steward."

HANGERS: Standard satin-finished Beechwood; optional extra.

OPTIONS: Caster wheels.

COSTUMERS

CONSTRUCTION: Upright is 1⅜" Satin Brushed Aluminum, 71" high. Legs are 11-ga. Polished Chrome steel, 21" on diagonal. **Costumer I** — Hooks of die-formed 11-gauge Polished Chrome steel. Black vinyl inset stripe. Units are assembled with machine screws. **Costumer II** — Black nylon hooks.

PACKING: See Krueger Price List for shipping information.

NOTE: See inside back cover for color samples. Refer to "model designation" chart on next page for sizes and dimensions, option specifications.

NEW KRUEGER HAT & COAT RACKS

ADD-ON-UNITS — Attach to existing assemblies. Consists of shelves, shelf brackets, hanger rail; upright leg, horizontal bar and sway braces for floor racks; wall mounting channel for wall racks; and all other standard equipment, depending on model. Units are available in 3, 4 or 5-foot lengths. (Note: Minuteman add-on-units for placement between two complete racks only — at 3 and 4-foot lengths.)

HOOK RAIL

H3—36" long, 6 hooks; **H4**—48" long, 8 hooks; **H5**—60" long, 10 hooks. Hooks are double prong.

* For Double-Face Add-On Units, specify 2 Single-Face models.

CASTERS — 2" Swivel casters are available for all floor racks.

HOOK OPTIONS — Double prong molded nylon hooks are available in Blue, Mustard, Orange and Charcoal Grey. Hooks are spaced 6" apart on the horizontal brace of floor rack and shelf tubing (horizontal rail supplied with wall racks when hook option is specified). 11 Hooks for 3-foot units; 15 hooks for 4-foot units; 19 hooks for 5-foot units. Brushed Aluminum inserts cover hardware.

BOOT SHELF — Two shelf brackets and boot shelf are included in unit, finished to match shelves, legs and uprights of model ordered.

NEW KRUEGER HEAVY-DUTY STOOLS

Rigid, strong, durable... new upholstered models for added benchwork comfort

Now sturdier than ever and featuring new upholstered comfort, Krueger's New All-Purpose STOOLS promise increased day-to-day efficiency and year-after-year durability. Heavy-gauge tubular steel legs, which are criss-crossed and rigidly welded to underside of seat, are electrically seam-welded and unitized to a sturdy, tubular cross-brace ring. All contact points *now* are shaped to enlarge weld areas, then joined to form a single, stronger integral unit. Full dimensional seats have completely curled edges with recessed Masonite panels or handsome vinyl upholstered seat and backrest combinations. Krueger Stools include a versatile Adjustable Leg/Backrest model, plus Standard and Adjustable Height models with adjustable backrest options. A convenient "low boy" Filing Stool on large swivel casters is also available.

SCROLL SEAT STOOL

Provides extra support with large, contoured, square seat. Recessed Masonite seat panel. Backrest secures with self-locking nuts, adjusts in 1" increments. Adjustable legs, sturdy unitized construction.

ADJUSTABLE LEG/BACKREST STOOL

Two adjustable features in one versatile unit. Upholstered seat and backrest in vinyl. Self-leveling steel glides for even floor contact.

NEW KRUEGER HEAVY-DUTY STOOLS

ADJUSTABLE BACKREST STOOL

Durable seating in choice of seat and backrest upholstery combinations or Masonite seat panel. Firm steel backrest has easy 2" adjustment for comfort. Super Dylan feet.

STANDARD STOOL

Heavy-gauge steel; Masonite or upholstered seats. Available with adjustable legs in 3 height ranges.

FILING STOOL

Versatile 14" "low boy" with swivel casters. Heavy-gauge steel with Masonite or upholstered seats.

Specifications

FRAME: Legs of electrically seam-welded 18-gauge, ⅞" o.d. tubular steel. Legs are criss-crossed, and welded into single solid unit. Tubular ring cross-brace on Scroll Seat Stools is ½" o.d. 16-gauge; on round seat stools, ⅝" o.d. 20-gauge. Ring is shaped at point of leg contact for enlarged weld surface and greater rigidity.

SEAT: Heavy-gauge cold-rolled steel, 14" dia. round seats or 15" x 14½" scroll seats. Tempered Masonite panel ⅛" thick, recessed into seat. Upholstered seat pad (for round-seat stools only) is ½" Tufflex mounted on hardboard panel, covered with 27 oz. elastic-backed vinyl, recessed into seat.

BACKREST: Round Seat — 18-Gauge curved steel backrest riveted to 7-gauge steel backrest support. Backrest support locks into position with single heavy-duty wing nut, for a 2-inch horizontal adjustment. **Scroll Seat** — 18-Gauge tubular steel frame riveted to 18-gauge die-formed steel backrest. Backrest mounts to stool legs by self-locking nuts for 3" horizontal adjustment.

UPHOLSTERY/FRAME COLORS: Masonite seat stools are available in Azure Grey frame finish as standard. Upholstered stools are Smoke Grey 27 oz. elastic-backed vinyl covering with Azure Grey metallic baked-on enamel frame finish, unless otherwise specified. See inside back cover for other vinyl and enamel colors.

PACKING: See Krueger Price List for packing and shipping information.

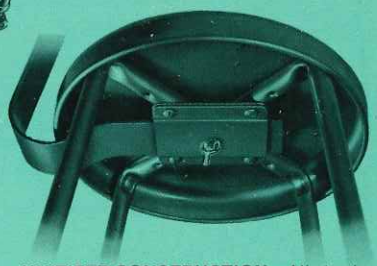
Model designations

Standard Stool	Adjustable Backrest Stool	Seat Height	Adjustable Height Stool	Adjustable Height/Backrest Stool	Height Adjustment
ROUND SEAT					
618	**618-B**	18"	**618-A**	**618-BA**	18-27"
624	**624-B**	24"	**624-A**	**624-BA**	24-33"
630	**630-B**	30"	**630-A**	**630-BA**	30-39"
SCROLL SEAT				**718-BA**	18-27"
				724-BA	24-33"

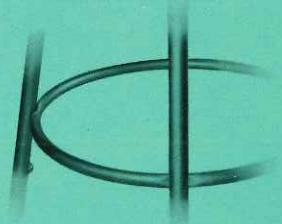
Filing Stools (614-F) are 14" high.
Note: All stools, except 700 Series, are available upholstered. To specify, add suffix "U".

Standard features

LEG ADJUSTMENT—Adjustable height stools have telescopic legs with easy, lock screw adjustment. Height increases up to 9 inches, in 1-inch increments.



UNITIZED CONSTRUCTION—All stools, have legs criss-crossed and firmly welded to seat underside, forming solid integral unit. Notice single wing nut for easy backrest adjustment.



WELDED RIGIDITY—Heavy-gauge, steel legs are electrically seam-welded. Leg ring brace is "shaped" at contact points to enlarge weld area and increase wobble-free stability.
